

CONTROL IS IN YOUR HANDS

Save time and money with a tap. The ControlPoint app is an easy way to quickly and effectively replenish your inventory and stocking levels.

Order Efficiently, Flexible Control

- Make orders any time with 24/7 access.
- Flexible replenishment cycles reduce inventory requirements and paperwork.
- Use in remote stocking locations.

Easy-to-use Product Selection

- Scan product labels/barcodes to add them directly to your cart.

Enhanced Shopping Cart

- Easily read, review and edit items before ordering or save orders for future purchases.
- Customize user permissions, set spending parameters, and send reminders directly to buyers in conjunction with Order Approval features on mscdirect.com.
- Cost Allocation features can be used in conjunction with mscdirect.com and let you create and customize spend categories by item, project, or department.
