

Autism ID

Please know that my autism means I might:

- Not look at you when you speak to me
- Need to have you say things more than once before I respond
- Take longer to answer questions
- Be startled if you touch me without telling me first
- Speak very quietly or very loudly
- Reach for my phone to help me talk with you

Here is the phone number of a person who can assist in an emergency if I am injured or cannot speak:

Name _____ Phone _____

Giving you this number means you have my permission to share information about me with them
