Low Carbon Heating Solutions

For over 75 years, Dimplex has been the trusted name in heating, offering locally manufactured solutions for the decarbonisation of British homes.

Dimplex Control Hub

A smart central gateway

Monitor energy usage and manage supported Dimplex products remotely. Any time, anywhere.

Dimplex Q-Rad

Intelligent electric heating on demand

Our most intelligent, Lot 20 compliant electric radiator, delivering instant warmth through dual-element technology.

Dimplex Quantum

Low carbon, cost-effective heating

The world's most advanced, Lot 20 compliant and SAP accredited high heat retention storage heater.

Dimplex Edel

Low carbon water-heating technology

High-performance and energy efficient hot water heat pump, boasting compact size and quiet operation.

HEATING & HOT WATER SOLUTIONS

The AI One is the most cost-effective solution to replace ageing electrical products.

Our combi or system boiler range have the widest outputs in the market. The compact nature of the portfolio, along with the plug & play design means our boilers can be placed almost anywhere in the home.

If copious amounts of hot water is required or a single sink needs hot water, Strom electric water heaters have you covered.
