Main Contact Email	
Main Contact Mobile	
Main Contact Telephone	
Main Contact Position	
Alternative Contact Name	
Alternative Contact Email	
Alternative Contact Mobile	
Alternative Contact Telephone	
Alternative Contact Position	

3. PROJECT PROPOSAL

Is the project a collaboration between organisations or will it be delivered solely by one organisation? If a collaboration, provide details of the other organisations involved. <i>(note that procuring suppliers does not constitute a collaboration).</i>	
--	--

Project name and site location. Include place name, coordinates, postcode.	
Describe the site and scope of works proposed (you must include reference to the MNO service being deployed or enhanced).	
Describe the service improvement to be delivered by the proposal, quantifying the expected number of users to benefit from the improved service.	
Does the project require the use of any public sector assets? If so, what assets are required, which public sector body owns the assets and are you already in discussions with the asset owner? Are any new public sector assets required or upgrades to existing assets e.g. structures, power or fibre?	
Do you already own, or have interests in any assets at the site and are you planning to utilise these assets in the proposed project? If so, provide details.	
Anticipated timescale to mobilise following approval.	
Anticipated timescale to complete capital works to commissioning stage.	
Indicative service life of the asset following commissioning.	
Indicate the status of any permissions you may require for the project (including planning permission, highways, National Landscape, SSSI, National Park, Public Rights of Way, wayleaves, Open Access Agreements and any other consents). These will be mainly external to your organisation Please specify the permissions required and indicate if you have them already, if not indicate any prerequisites and possible risks to securing them. These could include, internal capital approval, internal project signoff, suppliers, etc. These will be mainly internal to your organisation	
Are there any other specific risks to the deliverability of this project?	
Do you intend to work with any North Wales-based suppliers or other local organisations on the project? If so, provide details.	
What is the indicative capital cost of the project? If possible, provide an indicative cost breakdown as shown on the right. If possible, indicate whether the project management and implementation will be delivered by your own employees (internal) or outsourced to a third party (external).	Indicative cost for equipment and supplies Indicative cost for project management and implementation
What is the indicative amount of grant required? Note that the Subsidy Control Act requires the grant to be limited to the minimum amount necessary to make the investment commercially viable. To achieve the required amount of private leverage for the Scheme,	

the maximum amount of grant awarded will not exceed 65% of the eligible project expenditure in aggregate.	
---	--

4. Information for Sites that are not Ambition North Wales Target Sites.

This section must be completed for each site, in addition to the 'Project Proposal' section 7 submitted via Find a Grant. Any supporting information must also be provided with the EOI.

What is the location of the site? Include place name, coordinates, postcode.	
Describe the characteristics of the site and relevant local information including ownership, access rights or Open Access Agreements, availability of power and other services such as fibre, etc, and any involvement of the local authority.	
Does the site already have adequate backhaul connections, or will it be upgraded outside the scope of this application?	
Has the site been subject to a prior planning application, grant funding request, commercial activity and the outcome of these? For any consents required indicate likely time to secure and any other dependencies.	
How has the site been identified i.e. what service parameters were used? Have any MNOs been involved in that choice and have they proposed support if the location is enabled?	
Is there any baseline coverage or performance information from an existing operator? Provide details if relevant and available.	
Are there any seasonal demand indicators (tourism events, transport flows etc)? Provide details if relevant and available.
