PRERELEASE FORMAT: SEALED

In a Prerelease Sealed event, each player receives 6 packs and will form a deck using a minimum of 40 cards from those packs. The cards in a deck need not share a symbol with the player's selected character.

Players' starting characters are chosen from any character opened in their Prerelease Player's Kit, including the bonus random Alt-Art or Extra Rare Character card included in the kit. In addition to the deck building alterations for sealed, there is one gameplay rule change as well: when a player runs out of cards in their deck, they remove 5 cards from their deck instead of 10 when cycling.

Decks are not restricted to only 4 copies of a card as they would be in the Constructed format. Instead, players may play as many copies as they open from their packs.
