

There is a lapse in funding for the Department of Homeland Security, resulting in a partial government shutdown.

TSA PreCheck and Global Entry are both active and the Greater Orlando Aviation Authority does not anticipate major disruptions to operations.

We remain committed to the best in traveler safety and security and are working closely with our federal partners, who are critical to air travel.

During this time, we encourage passengers to use the FlyMCO website or Orlando MCO app to stay up to date on airport operations.
