

MCO Guests,

A federal government shutdown is in effect.

The Greater Orlando Aviation Authority does not anticipate that operations at MCO will be affected; however, we have developed contingency plans should there be a dramatic decrease in the number of TSA agents processing passengers. We are in conversations with local TSA, CBP, and FAA agencies and hope there will be a resolution soon.

Air travel is an essential part of the tourism sector, which helps to fuel our region; and we remain committed to the best in traveler safety and security.

During this time, we encourage passengers to use the FlyMCO website or Orlando MCO app to stay current about airport operations.

Federal partners have contingency plans in place. To learn more about those plans from our federal partners, visit the following:
