- Add to Ortho Ease® and massage into tired, overworked muscles.
- Contains the naturally occurring constituents alphapinene, camphor, limonene, and bornyl acetate.

SUGGESTED USE

- Use as seasonal decoration.
- Apply a few drops of your favourite essential oil directly to olive wood to create a gentle, passive diffuser for small spaces.

MAKER'S STORY

Artisan Organization: Holy Land Handicraft

Despite the heartache from losing a son to political violence, Evon found hope in providing a better life for her six daughters.

She and her husband built a successful olive wood workshop. Due to their success, Evon's daughters have received a full education and now work in professional careers.

The olive wood trees in the Olive Wood Giving Grove Collection were made in collaboration with dozens of family-owned workshops, like Evon's, through the Holy Land Handicraft Cooperative Society. This artisan cooperative in Bethlehem works to provide a lifeline for families seeking economic security.
