PragerU is changing minds...

I used to support a minimum wage as high as it is now, but then your video showed how well the free market and competition solves this and many other issues.

From radical leftie with no individual thought to an open-minded critical thinker and I owe it all to you.

Thanks to Prager University, I am now a conservative. I used to be a communist, but I challenged my own thought, and then you changed my mind like the millions before me.

I always cited your videos in speech class when there was a debate. Allowed me to win many an argument.

I've been inspired by PragerU videos at my prominently liberal college. You've encouraged me to defend my opinions because I am not alone.

PragerU has probably prevented me from becoming a liberal. As a student in MA, I am constantly subjected to teachers attempting to force their leftism upon me and others. PragerU has helped fight back against these leftist techniques, and allows me to have a mind of my own!

Watching Prager videos is one of the main reasons I became a Republican as it acts as one of the few news sources that provides accurate information. As I entered college, I became painfully aware of the indoctrination that happens on university campuses and decided I needed to be a LOUD voice of reason, even if it causes controversy. From battling professors to papering my campus, I have made a pledge to speak up and take action for the things I believe in.

Best,
Caroline Martin

I've quoted many prageru videos in class when we have debates because I'm literally the only conservative in all my classes. Thank u prageru for making awesome vids!

Sean Duarte

As a college student let me just say that I love your videos! I get so much of the left propaganda at school in my political science classes but it's nice to go back to my room and hear some of the facts.

I recently got my nursing school professor to include PragerU videos as part of course content. After realizing the Healthcare Policy content was entirely liberal, I pointed this out to my instructor. She asked for suggestions of conservative content. I suggested PragerU. She included your videos on Healthcare the very next day.

Just want to give a huge thank you to Dennis and the whole staff for such a great resource to our nation. I've been watching from day one and it's great to have these truths to back up my conservative views. Well done.

Your video helped me to prove my points on several subjects and to convince my friends that the left isn't the lawful/good ideology.

Message: Prager U played a part in helping me find my footing as a conservative. I live in an environment where the overwhelming majority of people are socially and politically liberal. Prager U has helped me see sense in being a conservative, and has helped me articulate those values, so that I may share them during debates. Thank you!

Your videos have helped me get information and facts to friends who were being thrown misleading news from the far Left. Thank you.

PragerU has been an incredible source of comprehensive educational videos, applicable to both teens and young adults, as these videos easily break down very complicated issues into easy-to-understand 5-minute-long videos. I often use these in the classroom.

I just wanted you to know that I regularly use Prager U videos as part of our homeschooling curriculum. My kids love them and learn so much. There's a lot of wisdom packed into those short videos.

@prageru is 1 of the most important conservative platforms available today. I remember the 1st video watched: the Middle East Problem. Explained everything in 5 minutes. Not opinions just facts. The educational value/truth provided is why it's my favorite Twitter follow.

Message: I am so happy I found PragerU's videos. They are very engaging, thoughtful and life-changing. I live in Canada, which I believe follows very leftist ideologies. In my high school (I'm 15 by the way), we're constantly taught one side of any argument and encouraged to never hear the other side. My civics class took a test today on our "political spectrum", and found out that I am the only kid in my class that believes in conservative ways. I wouldn't believe in any of these ideas if it were not for PragerU to shine a bit of light on the world's problems.

I am a 16 year old boy from The Netherlands and I really love what this channel is doing, keep going!! :D

I share and watch your videos daily. Prager U is seriously a life changer ! Australia is a sinking ship at the moment. We really need something like this in Aus. Though having lived in Europe I know things can still get a lot worse. Keep up the incredible work!

As a huge fan of yours from the UK, can I just say that PragerU has absolutely saved this hopeless millennial and if I had the cash I would absolutely donate to PragerU but if this were a perfect world, I guess we wouldn't need you PragerU.

Honestly, though, one day I hope this organisation, going at the speed it currently is, will be able to branch out toward UK and especially the rest of Europe, where it may be more desperately needed. Here's to hoping that's not too much of a pipe dream!

Don't be afraid to carry on towards the preservation of western prestige!

Yours Sincerely,
Harry

I'm 22 y.o. Russian and I really enjoy your vids. I'm sure that the expansion of this movement and your ideology will make the world a better place.

I live in Brazil and love the smart, simple, fun and effective way conservative values are shared through your videos. They have led me to further readings and researches. Congratulations! Thank you! Keep it up!

Message: Your videos are absolutely phenomenal. As recently as December, I was a leftist. Now, here I am, supporting conservative causes and very likely voting right-wing in the next election. #Convinced. Thank you for all the great work, God Bless PragerU and God Bless America.

...around the world.

Jeff W.

Thank you for taking this on. It really is a battle of good vs. evil raging around us, with the left trying to stifle all real information on conservative and Christian beliefs. God bless you. I wish I could give more.

I'm a CA public High School teacher (Civics and Economics) and have been using the PragerU videos since the start. It's my greatest tool in class! Thank you! My donations to PragerU come back to me 100X over.

I believe that these videos can change the course of the conversation and are doing that. I also believe these videos can change the hearts and minds of people. Thanks for the effort put into these. They are clear, concise, and to the point.

All thanks to supporters like you.

PragerU is the best source of opinion changing information I have come across on the internet. Informative short videos by people that know the subject intimately are exactly what we need to inspire core American values in the next generation.

After considerable thought and consideration, I've decided that Prager U is the best vehicle for positively impacting the future of our society. I will still support political candidates, my church etc., but Prager U is by far the "best bang for my buck."

Even though I was laid off from work, I donated because I believe in your work. And hope you guys can do even more. Keep up the great work.
