4 Configure notifications, rules, and schedules

Receive real-time alerts (text, email or push) due to a system occurrence, such as the system reporting an alarm, if someone forgets to arm the system, or if a door is left open. TELUS

Notifications > + New Notification

You can also create rules and schedules to automate your business. Set up arming schedules to ensure that your property is always protected after hours.

Automation > Arming Schedules

Getting started with TELUS Secure Business

Mobile app

1 Download the app

The TELUS Secure Business app for phone and tablet is available for free download on the Google Play Store and Apple App Store.

You can also control and monitor your system using your Apple Watch, Apple TV, Amazon Fire TV, Amazon Echo and Google Home.

2 Navigate the dashboard

View and control your system from the palm of your hand with the easy-to-navigate dashboard. Arm and disarm your panel, adjust thermostats, control locks, and view video cameras.*

3 Enable notifications

Click notifications in the left menu to enable push notifications. You can also add or manage your notifications on-the-go.

An open/close event notification will let you know if your business was not opened or closed on time.

TIP: two-factor authentication Add an extra layer of security to protect access

to your system. Whenever you sign into your system from a new or untrusted device, you'll have to enter both your password and a verification code sent to your mobile phone.

Online Account > Settings > Login Information > Two-Factor Authentication

4 View reports

In the left menu, select reports to view your most recent reports like open/close events and sensor activity.

You can also set report frequency and email options.
