

# CITRAGUARD™ DEODORANT

## PRODUCT SUMMARY

Face the day with confidence! Unlike many conventional deodorants and antiperspirants, CitraGuard™ is clinically shown to help maintain the balance of the skin's natural microbiome. It shields your skin from unwanted external and environmental influences while offering dynamic protection from odour-causing bacteria.

Young Living's exclusive formula contains no aluminium, parabens, talc or alcohol, so you can feel confident with every swipe. CitraGuard Deodorant uses Lemongrass, Thyme and Lemon essential oils to keep you smelling bright and fresh without resorting to harsh synthetic perfumes. Say no to harsh chemicals and make the switch!

## KEY INGREDIENTS

Arrowroot powder, Mango seed butter, Cocoa seed butter, Lemongrass essential oil, Thyme essential oil, Lemon essential oil

## EXPERIENCE

Lemongrass, Thyme and Lemon essential oils offer a clean, crisp aroma that helps combat underarm odour. Ingredients like coconut oil and mango seed butter soothe and condition the skin, while baking soda and arrowroot powder help absorb and control body odour-causing bacteria, keeping you fresh and confident all day.

## PRODUCT BACKGROUND

It's hard to find conventional products that are free of harsh chemicals. It's even harder to find a deodorant that claims to be natural and gets the job done. That's what sets CitraGuard apart: high performance fueled by natural ingredients.

CitraGuard's combination of natural ingredients is clinically shown to inhibit the growth of odour-causing bacteria but gentle enough to help maintain the balance of the skin's microbiome. You'll love the subtle and sophisticated springtime aroma from each application.

## DIRECTIONS

Apply 3-4 light strokes of deodorant to underarms daily. If necessary, turn dial to raise product.

## CAUTION

Keep out of reach of children. Do not expose to excessive heat or direct sunlight.

## BENEFITS & FEATURES

- Clinically shown to inhibit the growth of odour-causing bacteria and help maintain the balance of the skin's microbiome
- pH balanced and aluminium free
- Formulated without parabens, phthalates, talc, alcohol, mineral oil, synthetic perfumes or dyes, artificial colours, fragrances or preservatives
- Non-irritating; contains skin-soothing and skin-conditioning ingredients
- Formulated without gluten-containing ingredients
- Utilises the natural fragrances of Lemongrass, Thyme and Lemon essential oils
- Fights odour without disturbing normal perspiration
- Won't stain clothing
- Clinically tested
- Allergy tested

<sup>†</sup>100% pure, therapeutic-grade essential oil

# CITRAGUARD™ DEODORANT

## FREQUENTLY ASKED QUESTIONS

**Q. Why emphasise that CitraGuard Deodorant is paraben free?**

A. Parabens are widely used, chemically derived preservatives found in multiple cosmetic and personal care items. CitraGuard Deodorant utilises no harsh chemicals, providing you with a natural odour-absorbing product.

**Q. What's the difference between a deodorant and an antiperspirant?**

A. While the terms "deodorant" and "antiperspirant" tend to be used interchangeably, there is a distinct difference between the two. Deodorant helps lessen

the level of daily underarm odour, while antiperspirant typically contains chemical ingredients such as aluminium salts that plug the body's natural ducts and contract the skin's pores. CitraGuard Deodorant is free of aluminium.

**Q. What is the skin microbiome and why is it important to be balanced?**

A. The skin microbiome is the ecosystem of microorganisms that live on the skin. A healthy microbiome can protect against bad bacteria and fight against external and environmental factors.
