

# CINNAFRESH™ DEODORANT

## PRODUCT SUMMARY

CinnaFresh™ Deodorant delivers all the benefits of traditional deodorants without any harsh chemical additives! Synthetic ingredients can disturb the skin's delicate microbiome, leaving your skin vulnerable to external and environmental factors. CinnaFresh is clinically shown to help maintain this balance in your microbiome, giving you the protection and confidence you deserve. With Young Living's exclusive formula, CinnaFresh offers one more way to eliminate chemical-laden products and make the switch to a clean, natural lifestyle.

## KEY INGREDIENTS

Arrowroot powder, Mango seed butter, Cocoa seed butter, Clove essential oil, Eucalyptus essential oil, Cinnamon Bark essential oil.

## EXPERIENCE

Hard to imagine a deodorant that can keep you smelling great without the synthetic ingredients? CinnaFresh gets the job done! Clove, Eucalyptus and Cinnamon Bark essential oils combined with arrowroot powder create a naturally inviting aroma that neutralises body odour without using synthetic perfumes or other artificial ingredients. You'll feel fresh whether you're at work, the beach or on a hot date!

## PRODUCT BACKGROUND

CinnaFresh Deodorant is an aluminium-free, natural odour fighter that you can rely on to keep you smelling fresh. This all-natural deodorant has essential oils and other powerful natural ingredients strong enough to neutralise odours but gentle enough to not disturb the skin's microbiome. With gluten-free natural ingredients to soothe and condition the skin, CinnaFresh is a great choice for staying fresh and confident all day!

## DIRECTIONS

Apply 3-4 light strokes of deodorant to underarms daily. If necessary, turn dial to raise product.

## CAUTION

Keep out of reach of children. Do not expose to excessive heat or direct sunlight. Do not use on broken or irritated skin. May cause skin sensitivity. Application to the skin may increase sensitivity to sunlight. Discontinue use if irritation occurs. For external use only.

## BENEFITS & FEATURES

- pH balanced and aluminium free
- Formulated without parabens, phthalates, talc, alcohol, mineral oil, synthetic perfumes or dyes, artificial colours, fragrances or preservatives
- Non-irritating; contains skin-soothing and skin-conditioning ingredients

<sup>†</sup>100% pure, therapeutic-grade essential oil

# CINNAFRESH™ DEODORANT

## FREQUENTLY ASKED QUESTIONS

**Q. Why emphasise that CinnaFresh™ Deodorant is paraben free?**

A. Parabens are widely used, chemically derived preservatives found in multiple cosmetic and personal care items. CinnaFresh Deodorant utilises no harsh chemicals, providing you with a natural odour- absorbing product.

**Q. What's the difference between a deodorant and an antiperspirant?**

A. While the terms “deodorant” and “antiperspirant” tend to be used interchangeably, there is a distinct difference between the two. Deodorant helps lessen

the level of daily underarm odour, while antiperspirant typically contains chemical ingredients such as aluminium salts that plug the body's natural ducts and contract the skin's pores. CinnaFresh Deodorant is free of aluminium.

**Q. What is the skin microbiome, and why is it important to be balanced?**

A. The skin microbiome is the ecosystem of microorganisms that live on the skin. A healthy microbiome can protect against bad bacteria and fight against external and environmental factors.
