

ANIMAL SCENTS® INNER BALANCE

USE

 Dilution  Topical  Aromatic

PRODUCT SUMMARY

Dilute and apply a few drops of Inner Balance essential oil blend onto your pet's belly. Gently massage this refreshing blend, infused with fresh Peppermint, warm Ginger and spicy Anise oils. This carefully crafted animal blend is ideal for using topically, as the cool minty notes leave your pet smelling extra fresh.

KEY INGREDIENTS

Ginger, Anise, Peppermint, Cumin Seed and Spearmint essential oils.

PRODUCT BACKGROUND

Young Living has always been dedicated to your home and family, including your fur kids! Combining the settling, grounding properties predominantly found in Ginger, Anise and Peppermint essential oils, Young Living's Inner Balance promotes a relaxing environment for your pets.

BENEFITS & FEATURES

- Contains a relaxing aroma that can be applied to your pet's abdomen
- A warm and comforting aroma for pets.
- Formulated without synthetic perfumes, dyes, artificial colours or fragrances
- A portion of all proceeds from Animal Scents products will help support Vital Ground, a non-profit organisation dedicated to protecting the habitat of grizzly bears and other wide-roaming wildlife.

DIRECTIONS

Mix 1 drop in 5ml of carrier oil. If a larger quantity is desired, maintain a ratio of 1 drop to 5ml of carrier oil. Carefully apply according to the size and species of the animal. Additional dilution is recommended for smaller species. Diffuse in an open room up to 30 minutes.

SUGGESTED USE

- Dilute according to the label directions and apply 1-2 drops topically to the abdominal area.
- Carefully apply according to the size and species of animal. Dilute more for smaller species.

CAUTION

Take extra care when using any essential oils, especially those with citric ingredients, around cats. Specifically formulated for veterinary use. Keep out of reach of children. Store in a cool, dark place.

[†]100% pure, therapeutic-grade essential oil

ANIMAL SCENTS® INNER BALANCE

FREQUENTLY ASKED QUESTIONS

Q. How much does Inner Balance need to be diluted before application?

A. Mix 1 drop in 5ml of carrier oil. if a larger quantity is desired, maintain a ratio of 1 drop to 5ml of carrier oil. Additional dilution may be required depending on the size and sensitivity of the animal. This product was formulated for all animals, and each individual animal will have different levels of sensitivity. Start by diluting heavily and use in moderation. We also suggest testing the blend on a small area before wide-spread application. Every animal is different, so carefully observe how each animal responds to the oils.
