

USE

 Dilution  Topical  Aromatic

PRODUCT SUMMARY

Create an environment of comfort and reassurance with Young Living's Pet Care. Formulated specifically for animals, this essential oil blend can be diffused or applied topically to promote a balanced environment for your pets.

KEY INGREDIENTS

Tangerine, Lavender, German Chamomile, Royal Hawaiian Sandalwood™ and Frankincense essential oils.

PRODUCT BACKGROUND

Young Living has always been dedicated to your home and family, including your fur babies. Pet Care was developed to support pets and livestock. Using Young Living Harmony™, Trauma Life™ and Peace & Calming® blends, Pet Care has a strong base of essential oils with scents known for their uplifting properties.

BENEFITS & FEATURES

- Promotes a calming and peaceful environment for your pet.
- Formulated without synthetic perfumes, dyes, artificial colours or fragrances
- A portion of all proceeds from Animal Scents products will help support Vital Ground, a non-profit organisation dedicated to protecting the habitat of grizzly bears and other wide-roaming wildlife.

SUGGESTED USE

- Dilute according to the label directions and apply behind each ear.
- Dilute according to the label directions and apply to the bottoms of paws or on the flanks.
- Use when leaving your pet home alone for short periods of time, or when there is a lot of activity in the house.

DIRECTIONS

Mix 1 drop in 5ml of carrier oil. If a larger quantity is desired, maintain a ratio of 1 drop to 5ml of carrier oil. Carefully apply according to the size and species of the animal. Additional dilution is recommended for smaller species.

Diffuse in an open room, up to 30 minutes.

CAUTION

Take extra care when using any essential oils, especially those with citric ingredients, around cats. Specifically formulated for veterinary use. Keep out of reach of children. Store in a cool, dark place.

[†]100% pure, therapeutic-grade essential oil

^{*}100% pure absolute

FREQUENTLY ASKED QUESTIONS

Q. The colour of my Pet Care has changed from blue to green. Is it still safe to use?

A. Pet Care contains both German Chamomile and Blue Tansy. When these oils are freshly distilled, they are a deep blue colour. Over time, they change from a deep blue to a dark green. This is considered a normal, natural occurrence. Rest assured, the oil is still safe and efficacious.

Q. How much does Pet Care need to be diluted before application?

A. Mix 1 drop in 5ml of carrier oil. if a larger quantity is desired, maintain a ratio of 1 drop to 5ml of carrier oil. Additional dilution may be required depending on the size and sensitivity of the animal. This product was formulated for all animals, and each individual animal will have different levels of sensitivity. Start by diluting heavily and use in moderation. We also suggest testing the blend on a small area before wide-spread application. Every animal is different, so carefully observe how each animal responds to the oils.
