Information About Lot Number 006H23-2A – Lot Number Error on Outer Carton

SPIKEVAX® XBB.1.5 (andusomeran mRNA vaccine)

Drug Identification Number (DIN): 02541270

Dear Vaccination Provider,

The purpose of this letter is to inform Canadian vaccination providers of the following:

- An error in the lot number of **SPIKEVAX® XBB.1.5 (andusomeran mRNA vaccine)** COVID-19 vaccine Lot 006H23-2A has been identified on the carton. An additional letter 'A' has been identified in the lot number printed on the carton as follows: Lot 006H23**A**-2A.
- The lot number Lot 006H23-2A printed on the vial label is correct. All other information on the vial label and carton, including the printed expiry date, is correct.
- Only Lot 006H23-2A is impacted by this printing error. There is no impact to the product; it may remain in use. Please utilize the lot number on the vial label for record keeping purposes.

Product	Label	Correct Lot Number	Printed Lot Number
SPIKEVAX™ XBB.1.5 (andusomeran mRNA vaccine) 0.1 mg/mL Royal blue vial cap with grey label	Vial label (inner label)	006H23-2A	006H23-2A
	Carton (outer label)	006H23-2A	006H23A-2A

Additional Resources

1. For additional information including the Product Monograph and package leaflet, please visit modernacovid19global.com/en-CA or scan the QR code:
2. To find the expiration date for any Moderna COVID-19 vaccine, locate the lot number **on the vial** and enter it in the online 'Vial Expiration Checker' modernacovid19global.com/vial-lookup.
