**Information About Expiry Dates – Extension of Shelf Life**

SPIKEVAX® XBB.1.5 (andusomeran mRNA vaccine)

**Dear Vaccination Provider,**

The purpose of this letter is to inform Canadian vaccination providers of the following:

- An expiry date extension has been authorized for certain lots of **SPIKEVAX XBB.1.5 (andusomeran mRNA vaccine)** COVID-19 vaccine. Drug Identification Number (DIN): 02541270
- The three lots shown in the table below may remain in use for **3 months beyond the printed expiry date on the vial label.**
  - There is no change to the frozen storage information. SPIKEVAX XBB.1.5 multidose vials are stored frozen between -50° to -15°C (-58° to 5°F).
  - There is no change to the refrigerated storage information. Vials can be stored refrigerated between 2° to 8°C (36° to 46°F) for up to 30 days prior to first use.

Product	Presentation 0.1 mg/mL	Canadian Lot #	Printed Expiry Date	Revised Expiry Date
SPIKEVAX® XBB.1.5	 <b>Royal blue vial cap with blue label</b>	020G23A	29-Apr-24	29-Jul-24
		021G23A	1-May-24	1-Aug-24
		022G23A	1-May-24	1-Aug-24

**Additional Resources**

1. For additional information including the Product Monograph and package leaflet, please visit [modernacovid19global.com/en-CA](https://modernacovid19global.com/en-CA) or scan the QR code:
2. To find the expiration date for any Moderna COVID-19 vaccine, locate the lot number on the vial and enter it in the online 'Vial Expiration Checker' [modernacovid19global.com/vial-lookup](https://modernacovid19global.com/vial-lookup)
