CONCRETE PRODUCTS

**Concrete Never Looked So Good**

**America's design/build leader in  
concrete fencing, sound barriers and  
retaining walls.**

**Cost effective • Design engineering • Fast, turnkey installation**

## Superior Board-on-Board™

7'6" - 7'9" on center set post  
Heights up to 10'

## Superior Fence™

7'6" - 7'9" on center set post  
Heights up to 10'

Superior Fence™, Superior Board-on-Board™, and Superior Wood Plus™ are amazing screening walls that can effectively add a lifetime of value and aesthetic appeal to any area. Give your commercial property or estate the look and feel of traditional cedar without the worry of re-staining, rotting, burning, termites, or frequent replacement.

### UNIQUE BENEFITS

Cedar texture both sides • Panels stack horizontally or vertically • Resists the elements, longer lasting than wood.

## Superior Wood Plus™

Posts set 5' on center • Heights from 1' to 30'

## Superior Ledgestone™

Versatile. Reliable. The look of rough hewn stone.

Our series of Superior Stone products includes Cobblestone, Ledgestone, and Stone Columns, all of which are nearly indistinguishable from traditional hand-laid stone masonry. Add appealing, enduring value to your property.

### FEATURES

- Heights from 1' to 30'
- Double sided texture
- Posts set 5' on center
- Integral color
- Standard or bullnose cap

## Superior Cobblestone™

Old world charm. State-of-the-art engineering.

# Superior Cut Stone™

IDEAL FOR SUBSTATIONS AND PROJECTS THAT  
REQUIRE AN EXTRA LEVEL OF PROTECTION

Designed as a heavy-duty screening wall, our new **Superior Cut Stone™** features a ballistic design that meets Level 7 UL 752 specifications.

## UNIQUE BENEFITS

- All of our products are durable, customizable and affordable
- Provides premium level safeguarding for a community's power systems
- 14"x 12" posts are at 8' on center
- 5"-6" thick panels
- Cut Stone™ texture on both sides
- Custom paint or stain to match surrounding characteristics or architectural specifications

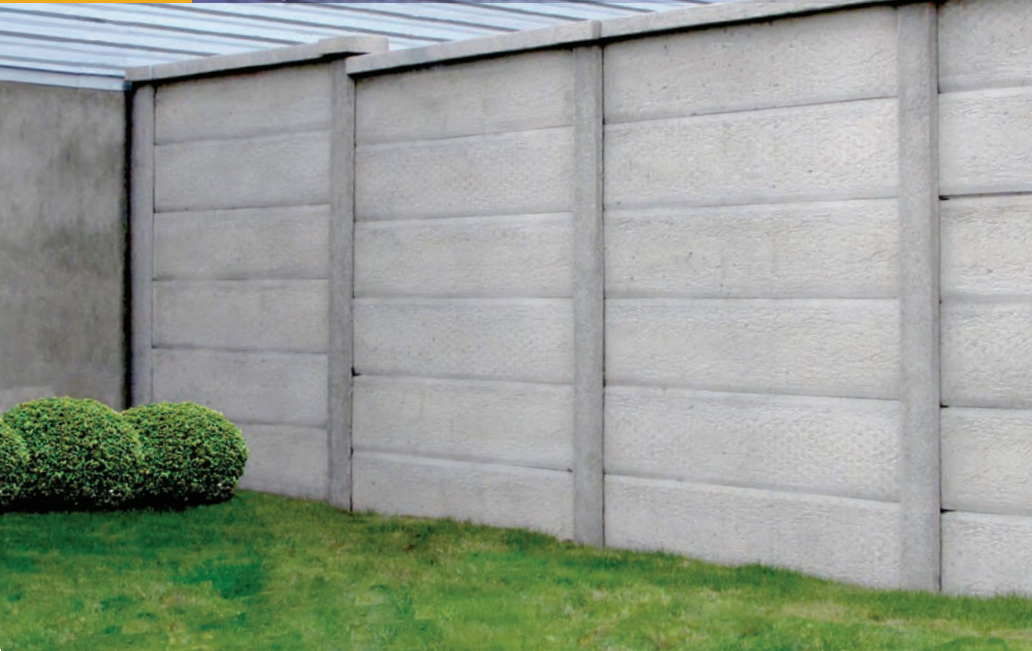

## Superior Stucco™

The rich textured look and feel of a stucco wall, with all of the strength and reliability of a precast concrete fence.

## Superior Brick™

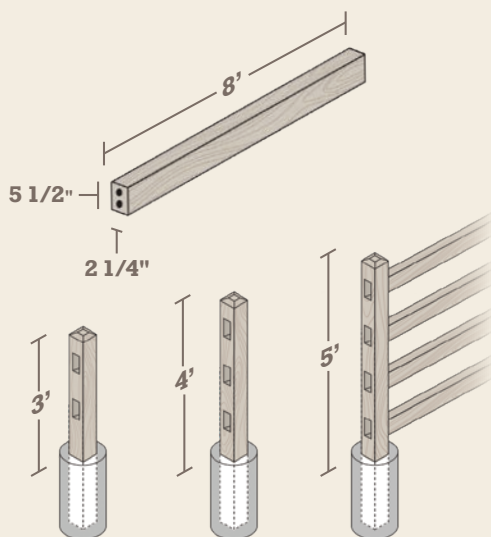

More versatile than traditional brick masonry and can be installed in a fraction of the time. Engineered to withstand wind loads and extreme temperatures.

# Superior Rail™

Our unique and reliable rail fence system is beautifully designed to help enhance your surroundings, while maintaining its natural-looking wood texture for decades.

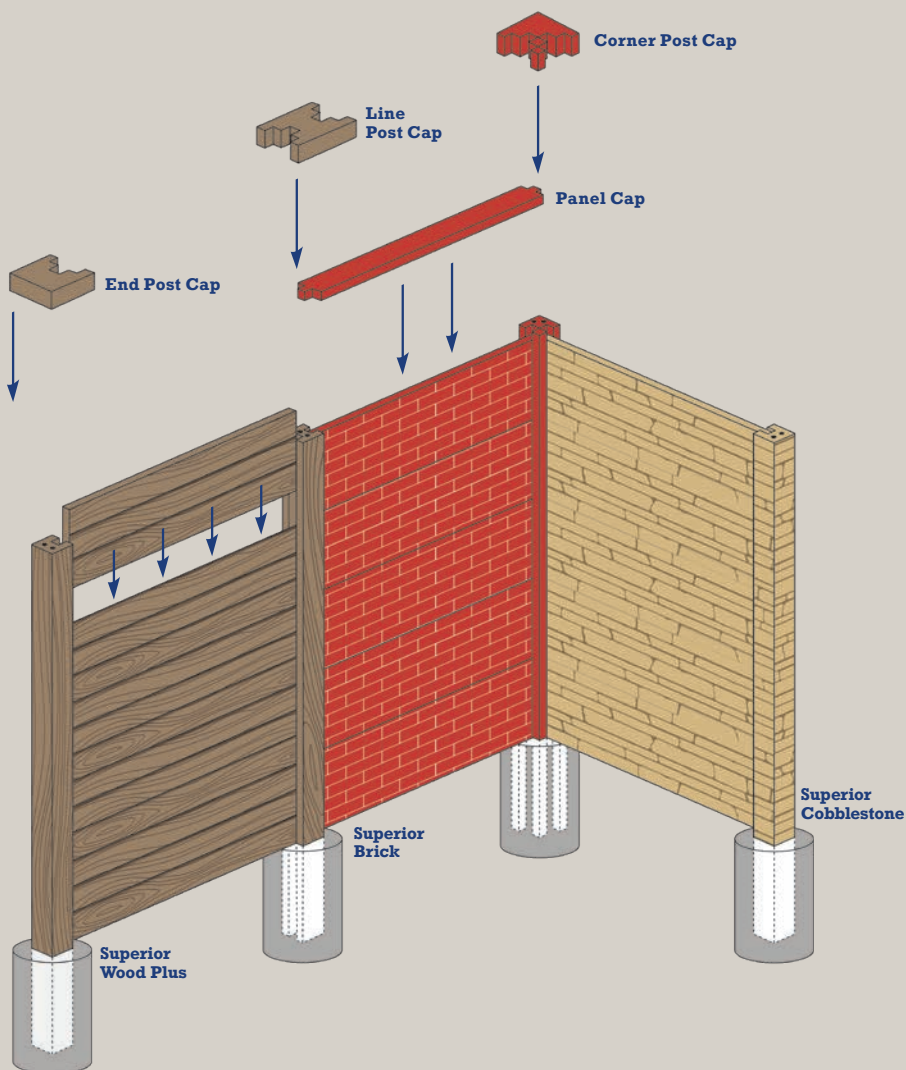

## UNIQUE BENEFITS

- Wood texture on both sides with integral color
- The post is embedded into the concrete footing / pier
- Concrete posts are spaced at 8' on center
- 3' to 5' from grade to top of post for 2, 3 or 4 rail
- Posts & rails are reinforced with steel rebar for longevity and durability

# PRECAST FENCE INSTALLATION

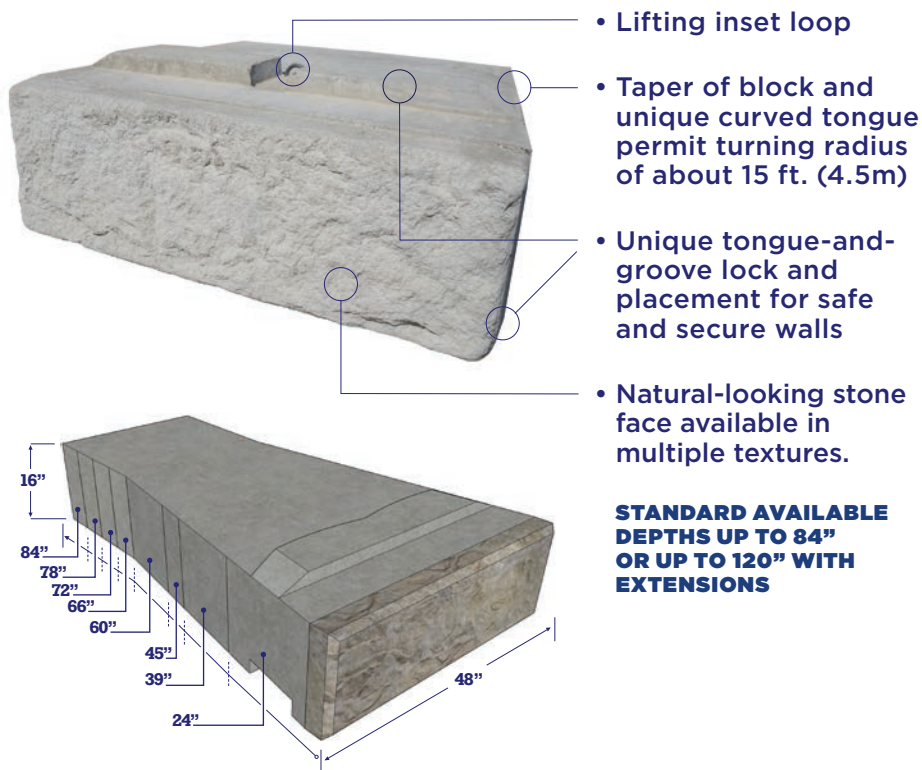

## TECHNICAL INFORMATION

- Integrated color and concrete are thoroughly mixed and vibrated, and will retain a strength of 5,000 PSI at 28 days
- Steel-reinforced posts, panels, and rails. Rebar conforms to ASTM A615, grade 60
- Wall posts are set 5' - 0" or 7'-6" to 7'-9" on center
- Post footing depth varies with local codes, soil conditions, wind load, and fence height
- Foundations: Site specific geo-technical information is used for each design
- Fences can be built from 1' to 30' in height

# ReCon™ Retaining Walls

Size and mass make this modular system an ideal and cost effective retaining wall product.

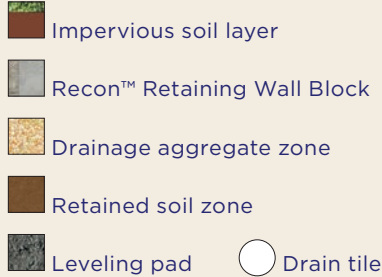

## TYPICAL GRAVITY RETAINING WALL SECTION

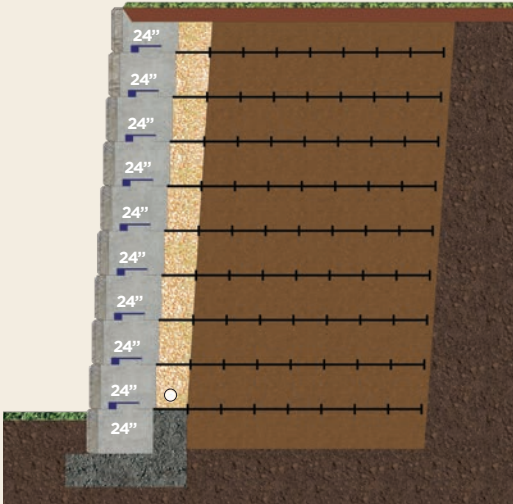

### IDEAL FOR “CUT” WALLS

ReCon's industry leading block depth choices aid in creating an efficient design. Designers can maximize the usable real estate at the base of the wall by eliminating geogrids. Owners can save time & money on excavation and compaction of soils.

## TYPICAL GEOGRID RETAINING WALL SECTION

### IDEAL FOR “FILL” WALLS

ReCon's 24" deep blocks allow the geogrids to “pick up the load”.

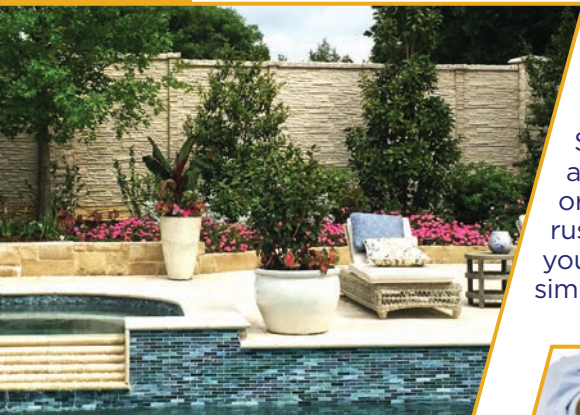

**ReCon™ Retaining Wall Blocks**, manufactured and installed by Superior Concrete Products, are more cost effective than formed, cast-in-place concrete. Brick and stone can fail over time. ReCon™ walls are built to last and customizable to match your property's or project's design aesthetics.

### UNIQUE BENEFITS

- Gravity walls up to 20' without reinforced grid\*
- Reinforced walls up to 45'\*
- Durable, fast installation without mortar or pins
- Engineered and tested
- Customizable design and aesthetics

Contact us today for a consultation with one of our professional engineers or consultants.

## COST EFFECTIVE

Superior Concrete Products is a wise alternative to stone, brick or wood fences that typically rot, rust or easily burn. Over the life of your new fence or wall, the savings simply add up.

## DESIGN ENGINEERING

Our design engineers will work directly with you, creating designs, shop drawings, site specific specs, and wall elevation plans. Bottom line – you save time, money and get superior results.

## FAST, TURNKEY INSTALLATION

Nationwide, from design to cleanup, we handle every aspect of building and installing your wall or fence. Let our professional team make your next project worry-free. Contact us today.
