PAW Patrol Dino Patroller

Saving the day is more adventurous than ever with the Dino Patroller, the first-ever motorized PAW Patrol team vehicle. Featuring room for all six pups, oversized wheels, a projectile launcher and an exclusive Chase and T. rex dinosaur action figure, the Dino Patroller is ready to roll. With its oversized wheels, the Dino Patroller is able to conquer any terrain. As you play out your dino rescue adventures, push the tail to make the large-scale dino's mouth open and help the PAW Patrol spot your T. rex in trouble! Deploy your Deluxe Vehicle from the bay and launch the rescue nets to help save the day!

Age: 3+; SRP $59.99

PAW Patrol Ultimate Police Cruiser

Packed with exciting features to discover, including flashing lights and sounds, this huge cruiser is five awesome vehicles in one. With the cruiser itself, two motorcycles, a boat and a helicopter, the Ultimate Cruiser is ready for anything. Load Chase (figure included) and the rest of the pups (sold separately) into the vehicle and get ready for adventure. From the driver's seat, Chase has the perfect vantage point to spot trouble and launch projectiles. Take down obstacles, then attach the launcher to another spot on the cruiser or on the helicopter! Send the motorcycles straight into high-speed action by pushing the button on top of the cruiser – the sides pop out, automatically launching both bikes. For aerial back-up, press the button on the back of the cruiser to send two pups to the sky in the helicopter. The top of the cruiser opens up, activating the chopper's lift off – as the helicopter rises up from inside the vehicle, the propellers spin into action!
