HOW TO TRAIN YOUR DRAGON

Deluxe Action Viking Ship

This powerful battle-ready ship is ready for action! Designed as both a fearsome vessel and a mobile play vehicle, it lets Toothless and Meatlug fly alongside the ship. Featuring vikings, 2 discs, 1 boulder and 1 stone statue, this ship has everything young warriors need. To prepare for battle, kids can slot the disc in the mouth of masthead and pull back to fire them into battle. With a built-in launcher at the back of the ship, kids can fire away placing boulder in position to blast the stone statue for exciting target-practice.
