

Sponsorships and donations policy

REMA 1000 wishes to support initiatives and organisations that work to promote awareness of healthy food and a healthy lifestyle. We also want to support organisations and initiatives that, like ourselves, work to promote sustainable consumption, production, animal welfare and biodiversity. We wish to contribute, nationally as well as internationally, by supporting relief organisations.

REMA 1000 commits to

- Providing donations based on a fair view of the application through our Donation Group. The group chooses initiatives based on the relevance of the request for REMA 1000, our values, objectives, and stakeholders. All donations are assessed on this basis.
- Ensuring that organisations and initiatives receiving donations and sponsorships comply with the ethical standards specified in our Code of Conduct.
