

Mannington®

HARDWOOD

Beautiful by Nature

Introducing two stunning new hardwood styles that showcase the artistry behind every floor. Handcrafted by skilled artisans, each plank is individually touched by human hands, creating authentic character and timeless beauty. From bold European oak to expressive hickory, these new introductions blend exceptional craftsmanship with today's modern designs.

Visit **Mannington.com/PK** to learn more about our introductions.

Why Choose Mannington Hardwood?

1. Experts in Engineered Hardwood since 1986

- 40-year legacy of style and design leadership
- Mannington's exclusive ScratchResist® protects against everyday household scratches and scuffs to keep the floor looking newer, longer
- Mannington's in-house design team searches the world for inspiration and then enhances the natural beauty of the wood

2. Extensive European White Oak Offering

- European White Oak from 3/8" to 5/8" total thickness
- Long and wide planks to Herringbone formats
- Multiple textures available, from hand-scraped to lightly wire-brushed

3. Distinct Handcrafted Styles and Unique Species

Inferno

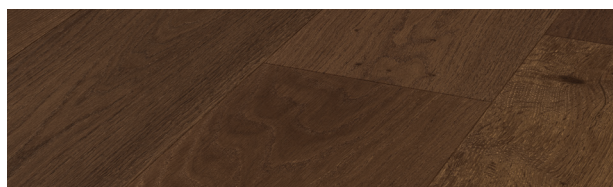

Inferno is a bold interpretation of European White Oak, defined by depth, drama, and refined craftsmanship. Fumed to intensify the natural tannins within the wood, each plank reveals rich tonal variation and layered color that feels both sophisticated and striking. The sawn-face treatment highlights the raw beauty of the grain, while a wire-brushed finish enhances texture—bringing out the oak’s natural cathedral grain patterns and linear movement with tactile authenticity. In a generous 9.5” width with random lengths up to 87”, **Inferno** creates a spacious, custom-installed aesthetic that feels both architectural and elevated. Powerful yet nuanced, Inferno delivers a floor with presence—where artisanal texture and European elegance meet modern design confidence.

Tandem

Tandem is a celebration of contrast in perfect harmony. Crafted from bold, expressive hickory, this distinctive hardwood is dual processed—half fumed and half stained—bringing together two techniques in one beautifully balanced design. The fumed planks deepen the wood's natural character from within, enriching the grain with organic depth and tonal complexity. The stained planks introduce complementary warmth and dimension, enhancing hickory's signature movement and variation. Together, they create a layered, dynamic visual that feels intentional, artful, and entirely unique. In a generous 7.5" width with lengths up to 83", **Tandem** delivers a spacious, flowing installation that highlights the interplay of light and dark across the floor. The result is a statement of craftsmanship and creativity—where two finishes move as one, forming a floor that is both distinctive and seamlessly unified.
