Matching ADURA® Moldings

Name	Description
Stairnose (94")	Used to add a flush, finished look to stairs. Stairnose also comes with a shim to create an overlap profile for use as a step nose with floating floors.
T-Molding (94")	Provides a smooth transition between the ADURA® floor and the floor covering in the adjoining room. T-Molding is designed for floor surfaces that are approximately the same height.
Reducer (94")	Reducer is for transitioning down to another floor of lower height such as sheet vinyl.
Quarter Round (94")	The rounded shape creates a subtle blend between the floor and the wall. It should be attached to the vertical surface, not the flooring itself.
End Cap (94")	Typically used at exterior sliding doors, high pile carpet, ceramic tile or fireplace hearth.
SimpleStairs®	SimpleStairs® Top Step Nosing matches the look of a SimpleStairs® tread and can be used as an overlap at the top step when accommodating floating floors.
SimpleStairs® (48")	Molded full-size stair tread made of actual ADURA® material. With rounded nose for use in residential settings.

Coordinating Hardwood Moldings

Name	Description
Reducer Strip	Transitions the wood floor to another floor of a lower height, such as resilient or low-pile carpet.
Quarter Round	The rounded shape creates a subtle blend between the floor and the wall. May be used with Wall Base molding.
Baby Threshold	Finishes the edge of the hardwood where it meets, residential carpet, ceramic tile, exterior doors, or fireplace hearths.
Flush Stair Nose	Protects and beautifies step and stair edges. Also used for step down molding into sunken living rooms or kitchens.
T-Molding	Joins wood floors in two separate rooms. Also recommended as a transition between the wood floor and another floor of approximately the same height, such as porcelain tile.
Wall Base	Borders the floor at the base of the wall to give the room a finished look. May be used with Quarter Round molding.

Coordinating Restoration Collection® Moldings

Name	Description
Reducer Strip	For joining laminate floors to another floor of different height, such as sheet or low-pile carpeting.
Quarter Round	The rounded shape creates a subtle blend between the floor and the wall. May be used with Wall Base molding.
End Cap	Typically used at exterior doorways to finish the space where the laminate floor ends. It's also used to transition from a laminate floor to a carpet, ceramic, or fireplaces.
Step Nosing	Used to add a finished look to steps and stepdowns, Step Nosing comes in either an overlap or flush-mounted profile (select styles). With the overlap style, the lip overlaps the flooring on the top or "tread" of the stair or step down. With the flush style, the nosing fits up against the flooring to create a smooth transition.
T-Molding	Provides a smooth transition between a laminate floor and the floor covering in the adjoining room. T-Molding is designed for floor surfaces that are approximately the same height. It's also used as an expansion joint when covering large areas with laminate floors.
Wall Base*	This molding borders the laminate floor at the base of the wall to give the room a finished look. May be used with Quarter Round molding.

*Wall base only available for certain Mannington laminate floors.

INSTALLATION ACCESSORIES

Name	Description	Order Code	Product Category
ADURA® Luxury Grout	· Acrylic grout designed to complement ADURA® Vinyl Tile	Varies	ADURA®
Universal Tapping Block	· Install your new flooring while protecting the flooring from damage · This tapping block protects the tongue or edge of the plank during installation, resulting in a tight seam between planks	801926	ADURA®, Laminate HW
SpillShield® Applicator	· Used to install Restoration Collection® floors with SpillShield® for more moisture protection	381771	Laminate
MLG33 Low Gloss Seam Sealer	· Two-part seam sealer is designed for Mannington products with low-gloss urethane-based wearlayers · One kit will seal approximately 70 lineal feet of seams	832233	Sheet (LVS, SPR, RS, JS, IMS)
MSS20 Standard Gloss Seam Sealer	· Designed for seam sealing all resilient vinyl flooring products with a vinyl wearlayer · Used for Adura repairs/modifications	832202	Sheet (BM, IMP)
Applicator Kit VST-96	· Applicator bottle and tip for MSS-20 or MCS-42 seam sealers	186871–VST-96	Sheet/ADURA®

CLEANERS/FLOOR CARE

Name	Description	Order Code	Product Category
UltraClean 32 oz. Bottle	· Our most popular cleaner · Non-toxic, water-based formula · Will not leave a dulling residue · Can be used on all flooring	801988	All categories
Wood Care Kits	· Dropped product–some inventory available · Available in select colors · Allows you to make small repairs to scratches or scrapes on Mannington Hardwood Floors in the home	Varies	Hardwood
Mannington Scratch Eraser	· Designed to hide minor scratches in flooring with a urethane wear layer. For use on all Mannington LVT flooring products. This product also works well with Restoration Collection.	806227	All Mannington LVT flooring products.

ADHESIVES

Name	Description	Order Code	Product Category
Triple Stick™ Adhesive Cartridge	• A one-part, moisture-cured polyurethane adhesive without water or chlorinated solvents • Once cured, the adhesive becomes a tough, flexible, water-resistant polymer that adheres to a variety of surfaces	700036	ADURA®, Hardwood and Laminate
V-31 Adhesive	• Nontoxic, nonflammable, light-colored, latex-based adhesive • Provides a water- and alkali-resistant bond for felt-backed floor coverings • For use over approved suspended wood under layments; on-, above-, or below-grade fully cured concrete; and on existing smooth, non-cushioned, tightly-bonded resilient floor coverings	839831 (1 Gallon Pail)	Felt Backed Sheet
Mega Glue	• PVAC-based adhesive for bonding wood and HDF products • Used in the groove of Hardwood for alternative install method when stapling. • Used for gluing the tongue and grooves of boards together on floating Hardwood floor installations	600021	Hardwood
MT-711 Adhesive	• Solvent free, and acrylic based adhesive • Nonflammable, and anti-microbial with zero calculated VOC's	849886 (4 Gallon Pail) 849889 (4-1 Gallon Pails)	ADURA® Flex Non-Felt Backed Sheet
Ultra-Spread™ EZ Adhesive	• Ultra-Spread™ EZ Adhesive is a one-part, trowel-applied, moisture-cured urethane adhesive for full gluing HW	801372	Hardwood

COMMERCIAL MAIN STREET ADHESIVES

Name	Description	Order Code	Product Category
V-81 Adhesive	Premium latex, non flammable with strong moisture and alkali resistance; Easy application, VOC Compliant with fungicide protection	849845 (4 Gal Pail) 862914 (1 Gal Pail)	Felt Backed Sheet
TPS Adhesive	High quality Transitional adhesive for use in high moisture conditions and commercial applications	546024 (MoM TPS 4 Gal) 546026 (MoM TPS 1 Gal)	Non-Felt Backed Sheet and all LVT
V-95 Adhesive	Solvent-free two-component epoxy for heavy rolling loads in commercial environments	800291 (1 Gal Kit)	Non-Felt Backed Sheet and all LVT
XpressStep For LVT and Sheet	Immediate use after final rolling adhesive, good for high moisture conditions and heavy rolling loads	700116 (6 Cans per Car) 800005 (Winter Pack 6/Car)	Non-Felt Backed Sheet and all LVT

UNDERLAYMENTS

Name	Description	Order Code	Product Category
Mannington Underlayment M.U.L.	• A six-foot-wide felt and vinyl-coated sheet • Designed to be used as a monolithic float over painted substrates or in situations when removing the existing flooring is not an option	MUL-127483, 8 (85 sq yds) MUL-127484, 8LG (170 sq yds)	ADURA® Flex
Mannington Silent Solution Underlayment	• Can be used under Mannington Hardwood in glue/glue applications • Helps provide extra comfort underfoot • Provides sound deadening	MSS1 (765 sq ft per roll), MSS-311027	Hardwood
WHISPER 3N1® Underlayment	• Multi-use underlayment • Serves as a comfort, sound, and moisture barrier • Thin, light, and dense, making it easier for installers to work with it on the job site	700800 (300 sq ft per roll)	Laminate Floating, Hardwood
COMFORT-BARRIER® II Underlayment	• Our most economical underlayment • A foam underlayment designed for use on above-grade subfloors ONLY	600002 (300 sq ft per roll)	Laminate Floating, Hardwood
Aqua Barrier II Laminate Underlayment	• An all-in-one underlayment sheeting with moisture barrier • A combination foam cushioning, moisture barrier film, and a built in edge sealing system for when more than one sheet is needed in the installation area • Designed to be used on subfloors where moisture is a concern	600001 (300 sq ft per roll)	Laminate, Floating, Hardwood
