

REAL HARDWOOD.  
UNREAL DURABILITY.  
REALLY WATERPROOF.

This innovative product combines the natural beauty of hardwood with extreme durability. TimberPlus™ is 100% real hardwood that is 2 times more scratch and 3 times more dent resistant than typical hardwood and is waterproof, thanks to our SpillShield®Plus technology. This is the perfect hardwood choice for homes desiring a true hardwood floor while needing unparalleled performance. Extra-large hardwood planks that are 8” wide and 7’ long provide a dramatic aesthetic to any room.

FEATURES

**TIMBER+PLUS**  
HARDWOOD  
REAL. DURABLE. WATERPROOF.

## UNREAL DURABILITY.

TimberPlus™ is 3 times more indentation resistant than traditional hardwood floors.

|              | Small Ball |
|--------------|------------|
| TimberPlus™  | 775mm      |
| Brand A      | 400mm      |
| Brand M      | 150mm      |
| Typical VSPC | 50mm       |

**TimberPlus™**  
Small Ball Drop

**Brand M**  
Small Ball Drop

**Brand A**  
Small Ball Drop

**Typical VSPC**  
Small Ball Drop

Small Ball is dropped onto the floor starting at 125mm and increased /decreased 25mm until failures are seen. 775mm is the highest drop height.

## REALLY WATERPROOF.

TimberPlus™ is a waterproof hardwood floor due to a few key features:

- SpillShield®Plus**
- Water Resistant Core**
- 5G® Dry™** profile keeps the water from seeping down to the subfloor

**5G® Dry™ also means 2 times faster installation.**

## TIMBERPLUS™ ANATOMY

- 1 UV Lacquer Topcoat**
- 2 Sliced Oak Veneer**
- 3 Wood-based Powder/Resin Layer**
- 4 Water-resistant High-Density Fiberboard**
- 5 Wood-based Powder/Resin Layer**
- 6 Wood Veneer Backing Layer**

Full complement of coordinating moldings available.
