Restoration Collection® Long Plank

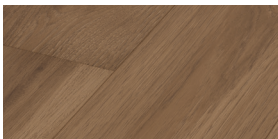

Resists Everything. Impresses Everyone. Mannington's latest addition to the Restoration Collection®, **Atlas**, makes a powerful statement with bold character and natural authenticity. **Atlas** is an 8" x 60" hickory design that honors the enduring strength and beauty of one of America's most iconic hardwoods. Featuring 18 unique planks, **Atlas** delivers exceptional variation, capturing the dynamic grain patterns, color shifts, and organic movement that make hickory so distinctive.

Mannington's exclusive SculptedEdge™ technology enhances each plank with carefully defined edges that add depth and dimension, creating a more authentic hardwood appearance. A realistic emboss-in-register texture aligns perfectly with the printed grain, allowing you to see and feel the natural detail in every board. The result is a floor that feels genuine, substantial, and richly layered—bringing warmth, character, and enduring style to any space.

Restoration Collection® Realism

With the highest number of EIR planks in the industry and with our new, SculptedEdge™ pressed bevel, Restoration Collection® floors offer the most realistic visuals. Two to three times more unique planks means less pattern repeat, leading to unmatched beauty and realism. Additionally, **Atlas** offers an impressive 60" length and 18-plank repeat.

Restoration Collection® TruDetail™

- 12-24 Unique Planks
- 2-3x more planks than competitors
- Only 4 plank repeats in a 200 sq. ft. room
