## Monogram

Style Trend: Revival and Wellness

One of the characteristics of a beautiful floor is the plank to plank variation that creates depth and vibrancy in a room. Monogram has been designed using a natural fuming process that creates that variation and enhances the natural tannins within the wood grain. Monogram showcases the true natural beauty of wood with the on-trend aesthetic of European white oak. With planks up to 86" long and a width of 8.6", Monogram will create a visually stunning backdrop to any home interior.
