

Microban® surface protection is exclusively available on Phenix carpets.

Helping To Keep Your Floors Cleaner.

Phenix carpets with Microban® help protect 24/7 against the growth of bacteria, mold and mildew, and remain 99% cleaner than untreated surfaces.

24/7 SURFACE PROTECTION | **99%** CLEANER

Almost 90% of consumers want a floor that helps to keep their home cleaner.

SureSoftSD™

|| This collection is constructed from our SureSoftSD™ solution dyed polyester fibers, which are:

- Exceptionally soft
- Stain and soil resistant, making it easy to clean and maintain
- Fade resistant, ensuring this carpet won't fade in the sun

The color is all the way through the fiber, like a carrot.

The color of non solution dyed fibers is only on the surface, like a radish, making the carpet dull over time due to wear.
