December 2013

VOL 2K13 • ISSUE 12

Published by **THE ASIAN SCHOOL, BAHRAIN**

## From The Director's Desk

Firstly, let me congratulate all who participated in the 30th Annual Day Celebrations that took place earlier this month. All of you, staff and students alike, had clearly put in tremendous effort towards this and I applaud each and every one of you. I thank all present at the function for turning out in great numbers and encouraging our young ones.

"Vision without action is merely a dream. Action without vision just passes the time. Vision with action can change the world", says author Joel Barker. We have a vision and at every step along this journey that we undertook 30 years ago, we have been acting towards realizing this vision. Our aim is to do our bit towards educating young minds that can make the world a better place. As our journey continues, we take on new challenges, new solutions and aim for new heights. We know ideas will be born, to be discarded, to be adopted; to succeed and to triumph. But this we know, we shall never cease exploring.

I take great pleasure in informing you that the construction of our new campus in Tubli, which has a compound area of more than seven and a half acres of land, is proceeding as per schedule with great momentum. The additional facilities at the new campus will be manifold. These facilities include 110 full-fledged classrooms, state-of-the-art science laboratories, social science and math laboratories, increased number of computer laboratories, smart classrooms and a well-stocked library. We will also be implementing a new school management system which will automate current processes and improve parent-teacher communication. In addition to all of this, we will have an auditorium which will accommodate around 2500 people. The multipurpose hall will also accommodate an indoor basketball court, volleyball court, four badminton courts, table tennis and gymnastics sections. The school compound will also have a regulation football ground and additional basketball, volley ball and tennis courts in the outdoor area. There will be an outdoor stage with an area to accommodate an audience of around 5000. The kindergarten section will have a special play area completely fitted with playground equipment which will be shaded with a canvas covering and covered on three sides by the school building. We are extremely happy that these facilities will lead to the qualitative and tangible development of our children, furthering their educational process. In all of these efforts we will need our parents to partner with us at all levels. This is the message we need to convey collectively. After all, holistic education of our students is our common goal.

I must sincerely thank each of you for your unrelenting enthusiasm and support and it is the same that encouraged us to take on such a great venture. We are certain that you will continue to support us in all our endeavors, both big and small.

Let me end with season's greetings to each and all... May the force be with us as we go forward!

**Joseph Thomas M.A., B.Ed.**

## A Thousand hands reaching out to mankind.....

*Happy Christmas  
&  
Prosperous New Year  
to one and all!*

**Dear Parents,**

♪..Heal the world..... Make it a better place.....♪

The lilting music of the Annual Day theme, 'One World' still resounds in my ears as I revel on events of the Annual Day Programme of 5th and 6th December 2013. Congratulations to the students, staff, parents and management on the success! The euphoria brings with it a sense of satisfaction and fulfillment to us educators as we watch our students perform with confidence and precision. The ideal growth of our students is our reward.

Thirty years of quality education, have helped us set up a unique learning environment where every day is a celebration. Innovations in education are adopted with zeal and challenge. The hallmark of the school is to work dedicatedly for the all-round perfection of every child and to this end positive and effective teaching is ensured.

As the year 2013 eves to a close, one is prone to reflection and introspection. Each year lays the foundation for ideas and improvement in the years to come. The coming year is promising and defining too. What matters is the faith we repose in our effort to tread the sands of time with a staunch heart on uncharted waters, whether storm or calm. In the words of author and journalist Hal Borland, "Year's end is neither an end nor a beginning but a going on, with all the wisdom that experience can instill in us." Inspired by this, let's usher in an era of peace and prosperity.
