

**CIRCULAR**

13-05-2026

**Dear Parents,**

We are pleased to announce that the Humanities, Commerce, and Science departments of our school will collaboratively host an exciting interdisciplinary event titled '**STREAMSCAPES: Nexus of Humanities, Commerce and Science Streams**'. This event is scheduled to be held during school hours on **22<sup>nd</sup> June, 2026**.

**STREAMSCAPES 2026 aligns with SDG 8: Decent Work and Economic Growth through the project theme, "Building Smart Tourism in Bahrain through AI Innovation."** The initiative explores how artificial intelligence and technology can enhance tourism experiences, support local businesses, promote Bahrain's cultural attractions, and contribute to economic growth. By encouraging innovation, digital skills, and future-ready thinking, STREAMSCAPES highlights the role of smart tourism in creating sustainable opportunities and supporting Bahrain's development.

'STREAMSCAPES' aims to foster collaboration, creativity, and innovation by encouraging our senior secondary students to develop and present original project ideas based on a shared theme. Students from Grades 11 and 12 are warmly invited to form teams and participate in the Selection Round, which will be held on **13<sup>th</sup> June, 2026**.

**Key Dates**

- Registration Deadline: 19<sup>th</sup> May, 2026
- Project Proposal Presentation: 2<sup>nd</sup> June, 2026
- Selection Round: 13<sup>th</sup> June, 2026
- Final Presentation: 22<sup>nd</sup> June, 2026

**1. Relevance to Bahrain and AI application**

Each team must prepare

- A **clear problem statement**
- An **AI-based solution (conceptual – Coding is optional)**
- A **final output** (Model along with PPT)

**2. Project Proposal Presentation Guidelines**

All teams are required to present their idea for selection in the preliminary round. The idea can be presented through a PowerPoint Presentation. Teams shortlisted in the preliminary round will advance to the first round.

- Each team will present their concept briefly, with a time limit of 5 minutes.
- Selection of teams for the second round will be based on:
  - Clarity of idea
  - Innovation and creativity

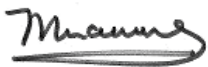

### 3. Preliminary Round Guidelines

- Each team must consist of five students, including at least one from Humanities, one from Commerce and one from Science, while the two remaining members can be from any stream.
- Teams may include students from both Grades 11 and 12.
- Each member's individual contribution must be clearly evident in the final project.
- Teams must present a physical model of their product or service.
- Presentations may be enhanced with visual aids such as slides, audio or video clips, or other multimedia elements.
- Materials used should be eco-friendly and sustainable.
- The total presentation time per team must not exceed 7 minutes.

#### Note

1. **Certificates and Medals** will be awarded to the **top three teams**.
2. **E-Participation Certificates** will be awarded to the **Finalists**.
3. Only the participants are required to wear business formal attire with a blazer for the final presentation and the others should be in regular school uniform.
4. Judging Criteria for Preliminary and Final Rounds
  - Innovation and Creativity
  - Relevance to Bahrain
  - Application of AI Concept
  - Team Collaboration
  - Adaptation Feasibility

We encourage you to motivate your child to participate in this enriching initiative. The event offers an excellent platform for students to showcase their ingenuity, critical thinking, and teamwork. We sincerely appreciate your continued cooperation in nurturing their talents and aspirations.
