React, Next.js, TypeScript, Tailwind.css, SASS, Styled Components, React Query, Figma (advanced layouts), git + conventional commits, GitHub, semantics and SEO + accessibility, ESLint + Prettier, Chat GPT, Supabase, contentful, Storyblok.

Projects & Portfolio

SELLEO CONTRIBUTIONS

I had an opportunity to work in a fair programming team, cooperating with marketing department. Workflow was GitHub-based Scrum methodology with 2-week sprints.

Website

A long-driven project with complex code base, CMS integrated. I focused on implementing new features, maintaining and refactoring the code, and debugging.

- **Live:** <https://selleo.com/>

- **Code:** Covered by NDA

- **Example contributions:**

- Landing pages layout
- Blog post layout
- Mega menu
- User movement tracking

Office Dashboard

Internal, company management software with custom solutions. Along with the interns we migrated existing Elixir application to React and implemented new features.

- **Live:** Covered by NDA

- **Code:** Covered by NDA

PERSONAL CONTRIBUTIONS

I have been developing my programming skills since 2019. Many projects have been created since then, so only few of them are listed below. Find more at my [GitHub profile](#).

TeamGuru

Powerful shell application for managing teams in your company.

- **Live:** <https://teamguru.vercel.app/>

- **Code:** <https://github.com/MoDrazzz/teamguru>

Wallpaper Generator

Calendar wallpaper generator created for Polish VACC Community.

- **Live:** <https://pl-vacc-wallpaper-generator.netlify.app/>

- **Code:** <https://github.com/MoDrazzz/wallpaper-generator>

- **Wallpapers:** <https://plvacc.pl/wallpapers>

Portfolio

My personal website with all the projects I have worked on and events I participated to.
