

# Protecting your mission

Faith and Not-for-Profit organisations are facing increasing compliance obligations regarding their duties in running the organisation. In this session we'll touch on some of the essential insurance covers for Christian organisations (e.g. Directors & Officers, Sexual Abuse, travel, etc.) and provide some hot tips on how to get the best outcome from your policies and protect your mission. Whether your mission field is overseas or in Australia, there'll be something for all organisations in this engaging workshop.

## ASH SUTALE & JULIANNE SMITH EA INSURANCE

**Ash** has worked for almost 22 years in the Insurance industry in various roles predominantly in the corporate space before moving into the NFP sector just over 5 years ago. He is passionate about 'kingdom thinking' and believes that providing insurance solutions is a supportive way of assisting organisations in managing their risk effectively and is equally important in helping organisations provide a duty of care towards their employees and volunteers.

**Julianne** has worked in the not-for-profit sector for over 15 years and has managed commercial property, motor fleets and insurance for a large charity. She has a desire to see community and faith organisations flourish and is passionate about helping organisations understand and manage their risks so they can continue to provide help and hope to communities.
