Agriculture:

The AICPA & CIMA Agriculture Conference is the must-attend event for CPAs and consultants working in all segments of the AG industry. Get the essential knowledge needed to guide your clients into a better tomorrow. With all food and beverage functions held in the exhibit area (except lunch), there are many opportunities to network with other professionals from around the country, affording you the unparalleled opportunity to promote your products and services.

Cannabis:

With more states across the U.S., and countries worldwide, legalizing this controlled substance for medical and recreational use, CPAs will have more clients investing or expanding their business into this sector and need to be prepared for the complex ever-changing requirements.

Whether you are already working in this niche or looking to expand into it, this conference offers a variety of sessions over two days covering key industry news and insights, including taxation in the U.S. and Canada — an update from the IRS and specific sessions covering entity selection 280E. Gain an understanding of how to audit or build a cannabis practice; become aware of the risks and the opportunities available in becoming a specialist in this subject.
