

# BioSkills

## ASI Total Hip Arthroplasty

*Preliminary Program*

Zentrum für Anatomie und Zellbiologie  
der Medizinischen Universität Wien  
Vienna, Austria  
29 – 30 October 2019

 ZIMMER BIOMET  
Institute®

## BioSkills

Our continuum of education offers a vast range of opportunities to health care providers to learn, interact, understand and share knowledge about our products, services and about surgical philosophies through a variety of modalities.

Life is all about activity. At Zimmer Biomet Institute® we therefore believe our delegates should play an active part when learning about new products, surgical techniques or the like. Get your hands and brains on human specimens, sawbones and instruments to deepen your knowledge and enhance your skills!

The specific course objectives include:

- Review the rationale for the ASI Approach
- Discuss pre-operative planning and formulate a surgical plan
- Assess surgical key points including capsular release, cup positioning, and anatomy management
- Perform the ASI Approach, either with or without a positioning table, using anatomical specimens
- Investigate available implant options and perform the surgical technique
- Review surgical tips from expert faculty that will be beneficial in practice

The Zimmer Biomet Institute wishes you a valuable and enjoyable training with us.

Zimmer Biomet Institute

**LEARN. INTERACT. UNDERSTAND. SHARE.**

Zimmer Biomet Institute Network is an **online HCP community** offering **webinars, e-books, tutorials, course-related materials** and much more.
