

Water efficiency

Within this item, the product can contribute:

- The material is self-washable and does not require a large amount of water waste to maintain its appearance

MATERIALS & RESOURCES

Within this item, the product can contribute:

- The material's recycled content
- Use as façade in existing buildings
- Material made in Colombia
- The material's content comes from FSC certified wood

ENERGY & ATMOSPHERE

Within this item, the product can contribute:

- It is possible to install the material as a ventilated facade, which could contribute at the time of developing energy savings strategies

The following table shows the different credits in which the product can contribute, and the number of possible points that can be obtained.

LEED 2009 for Core and Shell development

Chapter. Water efficiency

Credit 13	Reduction in water use	1 to 4 points
-----------	------------------------	---------------

Chapter. Materials & Resources

Credit 1.1	Reutilization of existing buildings	1 to 3 points
Credit 2	Waste management in construction	1 to 2 points
Credit 4	Recycled content	1 to 2 points
Credit 5	Regional materials	1 to 2 points

Chapter. Energy & Atmosphere

Credit 1	Optimize energetic performance	3 to 21 points
----------	--------------------------------	----------------

LEED 2009 Retail for New Construction and Major Renovations

Chapter. Water efficiency

Credit 13	Reduction in water use	1 to 4 points
-----------	------------------------	---------------

Chapter. Materials & Resources

Credit 1.1	Reutilization of existing buildings	1 to 3 points
Credit 2	Waste management in construction	1 to 2 points
Credit 4	Recycled content	1 to 2 points
Credit 5	Regional materials	1 to 2 points

Chapter. Energy & Atmosphere

Credit 1	Optimize energetic performance	3 to 21 points
----------	--------------------------------	----------------

LEED 2009 for New Construction and Major Renovations

Chapter. Water efficiency

Credit 13	Reduction in water use	1 to 4 points
-----------	------------------------	---------------

Chapter. Materials & Resources

Credit 1.1	Reutilization of existing buildings	1 to 3 points
Credit 2	Waste management in construction	1 to 2 points
