### What is InstantlyClaw?

**InstantlyClaw** is a cloud-based AI application that allows users to extract unlimited leads from various platforms, including Google Maps, Yellow Pages, and LinkedIn, without needing complex scraping tools or coding knowledge.

Unlike traditional scrapers that often get blocked or provide outdated information, InstantlyClaw uses advanced AI "claws" to bypass restrictions and pull real-time data, including names, emails, phone numbers, and social media profiles. It's built specifically for agency owners, affiliate marketers, and B2B sales teams who need a constant stream of fresh prospects.

### Key Features of InstantlyClaw

1. **AI-Powered Deep Scraping:** The core engine uses artificial intelligence to identify the most relevant data points, ensuring that the leads you collect are actually useful for your niche.
2. **One-Click Lead Export:** Once the software finds your leads, you can export them directly into CSV or Excel formats, or sync them with popular CRMs and autoresponders.

3. **Built-in Email Verifier:** To protect your sender reputation, InstantlyClaw verifies the emails it finds, filtering out "dead" or "catch-all" addresses.
4. **Social Media Finder:** Beyond just emails, it crawls the web to find the Facebook, LinkedIn, and Instagram profiles associated with the business leads.
5. **User-Friendly Dashboard:** You don't need to be a tech genius. The interface is clean, intuitive, and designed for speed.

## How Does InstantlyClaw Work?

Getting started with InstantlyClaw is a simple three-step process:

- **Step 1: Login & Search:** Enter your target keyword (e.g., "Dentists in New York") and choose the platform you want to extract data from.
- **Step 2: Extract:** Click the "Claw" button. The AI begins scanning and compiling a list of high-value prospects in seconds.
- **Step 3: Profit:** Download your list and start your outreach campaigns via email, SMS, or cold calling.

## InstantlyClaw OTOs and Pricing (Discounted)

To get the most out of the software, there are several One-Time Offers (OTOs) available. Using the official launch link usually grants access to an early-bird discount.
