

Trip Note PROS

GLOSSARY OF TERMS

1. Fake Fast pace: Pace analysis tools will be incorrect in this situation because in 'fake fast' situations, pacesetters are **CORRECTLY IGNORED** by riders that identify a 'runoff leader' that is going too fast early. This results in a pack that is running "a race within a race." Don't be too quick to downgrade Closers in such situations!
2. Accordion Flow: An 'accordion flow' is a dynamic that mostly occurs in turf routes. When leaders are successful in "backing down the pace" to catch a breather before sprinting for home, the field can crunch together before stretching out again, sometimes causing traffic issues for the back markers. In the majority of these instances, speed types and ground savers are the runners to benefit.
3. L: This is merely an abbreviation for "length."
4. "Tight" in-between vs "Loose" in-between : In-between racing is common in larger fields. "Tight" in-between positions cause stress and leave runners with tough options: (1) Progress and run the risk of moving too early. (2) Idle to move backwards results in position and ground loss. (3) Remaining in the same spot will likely result in the burning of needed energy.
5. Gapped leaders: Imagine a runoff leader and then (1) or (2) more rivals with a big advantage to the rest of the pack. These leading runners are out of position and chasing a leader that is **VERY LIKELY** going too fast early. Situations with "gapped leaders" offer a **HUGE** advantage to the Closers

TRIP NOTE: Was 10-1 ML. He was off ~1L slow, which is noted in the PPs. He moved off the rail and traveled in a neutral path down the backstretch, made a nice split of horses to pass (3) rivals before the first 1/4 mile was complete, took to the rail into the far turn and showed some professionalism by responding to encouragement and slipping up the inside to take over the place position leading into the stretch, and tried gamely to the finish while under a drive. A solid debut after a slightly tardy beginning, he draws the rail again for his turf debut.

TRIP NOTE: He landed in midpack while wide on the backstretch, began to gain into the far turn but was stuck 4W for the entire far turn, and as the PPs correctly point out, dealt with traffic issues and bumping for much of the stretch drive, which likely resulted in loss of speed that might have place him 2+L closer to the winner. A wide trip with some minor trouble in the lane didn't allow for his best, but he will still need to improve as he was never seriously involved.

TRIP NOTE: ON SYNTHETIC: He broke inward at the start and suffered a negative bump that likely cost him some speed. He raced on his own and targeted open air to a leader that carved out fast fractions throughout, did good work to overtake the 'race stalker' while gaining 3-2+W through the far turn, and continued to sustain his rally through the lane to overtake a tired pacesetter despite failing to change leads. A neutral trip overall, new connections take over and send him to the grass.

TRIP NOTE: ON SYNTHETIC: He raced in close proximity to the lead and inched his way forward leaving the backstretch, but had no choice but to press the pace while stuck 3+W for the entire far turn. He did good work through the turn to keep pace with the eventual winner (that saved all of the ground in the turn), but was slightly outfinished in the lane, and settled for place money. A good trip in terms of pace and a more difficult one in consideration of the wide trip, let's call it neutral, overall. New connections take over.

TRIP NOTE: ON SYNTHETIC: He raced along the rail while in close proximity to the leaders early, but when outside runners moved inward, he was tightened up and forced to steady and lost 1+L; this is noted in the PPs. He did good work to get his speed back up, saved ground while traveling near the inside on the far turn, and finished up well after easing to a clear and wide path in the lane. A tough trip given the trouble, it's very interesting to see his regular rider land on a runner that has been eased in two consecutive races, and for a trainer that does not give him any work.
