

Trip Note PROS

GLOSSARY OF TERMS

1. Fake Fast pace: Pace analysis tools will be incorrect in this situation because in 'fake fast' situations, pacesetters are **CORRECTLY IGNORED** by riders that identify a 'runoff leader' that is going too fast early. This results in a pack that is running "a race within a race." Don't be too quick to downgrade Closers in such situations!
2. Accordion Flow: An 'accordion flow' is a dynamic that mostly occurs in turf routes. When leaders are successful in "backing down the pace" to catch a breather before sprinting for home, the field can crunch together before stretching out again, sometimes causing traffic issues for the back markers. In the majority of these instances, speed types and ground savers are the runners to benefit.
3. L: This is merely an abbreviation for "length."
4. "Tight" in-between vs "Loose" in-between : In-between racing is common in larger fields. "Tight" in-between positions cause stress and leave runners with tough options: (1) Progress and run the risk of moving too early. (2) Idle to move backwards results in position and ground loss. (3) Remaining in the same spot will likely result in the burning of needed energy.
5. Gapped leaders: Imagine a runoff leader and then (1) or (2) more rivals with a big advantage to the rest of the pack. These leading runners are out of position and chasing a leader that is **VERY LIKELY** going too fast early. Situations with "gapped leaders" offer a **HUGE** advantage to the Closers

He moved in on the far turn, was forced to resist a runner to his outside that also advanced, and after drifting to the 4+P into the lane, did the best work to level past the embattled speeds. TRIP NOTE: ON SYNTHETIC: He reared BADLY at the start, losing ~5L at the start! If that weren't bad enough, he pulled his war forward and was recovering quickly, but ran up on others and steadied REPEATEDLY into AND through the clubhouse turn; this was a miserable beginning. He would deal with more bad spots on the backstretch and was forced to pause in spots, and actually finished OK without threatening. A BTL performance, he was best on this day!

He was sent hard with 3F remaining to reel in the pacesetter, but was overtaken by the rest of the pack, and weakened through the lane while nearest the inside. A neutral journey overall, it's worth noting that that chart caller says that he was 'fractious in the gate,' which by itself should be an excuse.

He stalked down the backstretch, moved to engage the leader into the far turn, and after taking the lead and being ridden with confidence through the turn, held sway strongly in the stretch despite drifting outward in the final 3/16. It seems safe to draw a line through this race given the beginning, and the wide journey just strengthens that opinion.

TRIP NOTE: Clearly this one has found her game - long on turf - because this was a much improved effort. She was slightly crowded early and paused to avoid a bad spot before being guided to the outside. That is where she'd remain for the remainder of the trip. She raced 3+W through the clubhouse turn, raced similarly wide on the backstretch, and was gaining in tandem with a runner to her inside in the far turn, was forced 4-5W into the lane while suffering some negative contact before she ever reached the top of the stretch. STRONG DOWNGRADE

TRIP NOTE: He was off ~1L slow from the gate, which is noted in the PPs. He raced high headed and keen over the dirt portion of the course, but this was brief trouble and actually didn't seem to amount to anything. The remainder of the trip was neutral, and was outfinished in the final 3/16. The blinkers go on, he receives class relief, and he returns to the turf course.

TRIP NOTE: ON DIRT: He pressed a slow pace from an inside position down the backstretch, but was given a thoughtful ride entering the far turn as he cleared off by nearly a full length, which doesn't read well in the PPs, but when it came time to resist, he was unable to hold off (2) rivals to his outside. A good trip off of the layoff, he gives the turf course another try today.

TRIP NOTE: He raced near the inside on the backstretch and into the far turn, and after trying to gain while 2+ as the turn progressed to the stretch, he could do nothing more than race evenly in the stretch. A neutral trip overall.

TRIP NOTE: We have nothing to add for this runner. He came away in good enough order, was outrun as the backstretch progressed and landed in last headed into the far turn, but was unable to get involved after angling to a clear path in the stretch.

STRONG DOWNGRADE

TRIP NOTE: The stumble that is noted in the PPs was VERY MINOR. Take this information with a grain of salt. He gained down the backstretch while wide on the course, got stacked 4+W as (3) rivals to his inside prevented him from moving inward to save ground, and after losing ground through the far turn, was allowed to jog home in the stretch. A tough trip overall, he'll need a form reversal, and he shows up as a first time gelding.

RACE NOTE: The pace was slow and the unopposed pacesetter went wire to wire. The show finisher was a next-out winner vs Md 20000 foes 'on dirt.'

STRONG DOWNGRADE

TRIP NOTE: He wasn't asked for ANYTHING, but still managed to show big speed and fled the scene early. He held a huge margin with 3F remaining, began to get cues to finish with 5/16 remaining, but was 'on empty' in the stretch, and faltered to the back of the pack. A pace casualty on this day, the cutback in distance makes sense.

HORSE NAME: Devil Moon

DATE: 1/21/23

DISTANCE: 1 Mile

SURFACE: Turf

RACE NOTE: The pace was 'fake fast' as a runoff leader was ignored by the rest of the pack. Stalker had the advantage and performed best; 2-3-4 early finished 2-3-1.
