TRIP NOTE: She was crowded and bumped at the start, losing ~1L at the start, recovered well to earn a forward position from a neutral path down the backstretch, and after drafting behind a lineup of (3) that evolved through the far turn, was eased 3W into the lane while appearing as a major player. A good trip after the mild trouble at the start, this was a good enough trip overall.

TRIP NOTE: She pressed a FAST PACE early before idling to track into the far turn, raced in the clear while 2+W and following from a good spot, but after easing 3+W (was mildly pushed there by an inside rival) into the lane, was outfinished when it mattered. A trip that looks good at first glance, it's possible that she's simply a 'need the lead type,' so it might be best to not be too hard on her. Expect another HARD TRY to make the top.

TRIP NOTE: Yes, she had a good trip on the lead as she was uncontested throughout and got away with theft in the first 1/4 mile (SLOW PACE), but she also never took a deep breath in this race as she drew off and then coasted before galloping out well and receiving some doting by her jockey! Clearly there is more under the hood.

TRIP NOTE: She showed big quickness to make the lead in a race loaded with early speed, was prompted and pressed throughout by an outside rival, but after resisting into the lane, tired in the final furlong, coughing up the minor awards in the late stages. A tough trip overall offers upside as she returns from nearly a 5-month layoff.

TRIP NOTE: The comment in the PPs is DUMB as she was not 'driving' as this chart caller suggests. She was quick and made the lead with no problem early, was given token pressure by an outside rival as she got away with beneficial fractions throughout, and after being urged to get away leading into the stretch, she showed a BIG BURST to leave the pack, and was MILDLY coaxed in the stretch. A good trip and performance that appeared to leave more gas in the tank, she takes on tough winners 'on turf' today.

TRIP NOTE: The bump at the start (that is noted in the PPs) is accurate, but also meant nothing. He settled on a good spot down the backstretch while securing a spot at the rail, saved ground through the far turn while traveling by himself and beginning to ease off the rail nearing the 1/4 pole, and after a 2-3-4-5W journey into the stretch, finished willing to close the gap and not miss by much. A good trip throughout, we'll be downgrading the effort.

TRIP NOTE: Yes, she was bounced back and forth, but these were MILD BUMPS, and she lost no ground as a result before settling on a very good spot leaving the backstretch! Take the comments in the PPs lightly or IGNORE them completely! She saved ground while following a trio of leader that were keeping each other honest through the far turn, was eased off the inside and was trying to push her way into the clear leading into the stretch, but was unable to find room and was forced to cut back to the inside for a chance at the rail in the stretch. TRIP NOTE: He was outquicked early and traveled in a 'detached' last place position through the early stages (a bad spot considering the DAWDLING pace), was given some coaxing at the inside passing the 5/16 and then put to more serious work with 1/4 to go, and although he never threatened in this race, he finished STRONGLY through the lane to earn place money, which deserves some bonus points.

RACE NOTE: The pace was a DAWDLE THROUGHOUT.

TRIP NOTE: He raced just off the pace while in the clear through the early stages, was allowed to inch forward through the middle stages to nearly earn a share of the lead crossing over the dirt portion of the course, and after kicking in the final 1/4, grinded past to earn the victory in a race that was DOMINATED by the speed (1-2-3 early finished 3-2-1).

RACE NOTE: The pace was SLOW.

TRIP NOTE: He raced under a snug hold near midpack while in control of a rail spot through the early and middle stages, was paused to avoid running up on heels as he inched forward late on the backstretch and continued to travel sweetly at the rail through the far turn, and when room finally became available through a tight seam at the fence in the stretch, he was asked for everything to sprint in the final 3/16. A good turf trip overall, he moves to dirt racing and is curiously dropped in for a tag.

RACE NOTE: The pace was NORMAL.

TRIP NOTE: He inched his way forward on the backstretch to earn a loose pocket position down the backstretch, lost a little ground despite owning the rail in the far turn (the top two made a dash for home and quickened the pace), and after leveling VERY WELL in the lane, eased over the top to run down the speed right on the finish line! A good trip throughout, we recommend downgrading this victory.

TRIP NOTE: He tried to make the lead but was outquicked by an outside runner, which led to him idling to take to the outside. He stalked while in the clear and racing wide to avoid confrontation down the backstretch, moved to the lead while being ridden quietly, and when an outside runner attacked him with 1/4 to go, resisted gamely the rest of the way, barely holding him off to get the score. A neutral trip and game score from nearly 6 months ago, he returns to try turf and draws a nice post.
