

# Trip Note PROS

## GLOSSARY OF TERMS

1. Fake Fast pace: Pace analysis tools will be incorrect in this situation because in 'fake fast' situations, pacesetters are **CORRECTLY IGNORED** by riders that identify a 'runoff leader' that is going too fast early. This results in a pack that is running "a race within a race." Don't be too quick to downgrade Closers in such situations!
2. Accordion Flow: An 'accordion flow' is a dynamic that mostly occurs in turf routes. When leaders are successful in "backing down the pace" to catch a breather before sprinting for home, the field can crunch together before stretching out again, sometimes causing traffic issues for the back markers. In the majority of these instances, speed types and ground savers are the runners to benefit.
3. L: This is merely an abbreviation for "length."
4. "Tight" in-between vs "Loose" in-between : In-between racing is common in larger fields. "Tight" in-between positions cause stress and leave runners with tough options: (1) Progress and run the risk of moving too early. (2) Idle to move backwards results in position and ground loss. (3) Remaining in the same spot will likely result in the burning of needed energy.
5. Gapped leaders: Imagine a runoff leader and then (1) or (2) more rivals with a big advantage to the rest of the pack. These leading runners are out of position and chasing a leader that is **VERY LIKELY** going too fast early. Situations with "gapped leaders" offer a **HUGE** advantage to the Closers

**TRIP NOTE:** ON DIRT: We have nothing to add for this runner. He raced near the back while on hold and drafting behind the speed, but when the pace picked up into the far turn, he was unable to keep pace with the leaders. A clean journey that was 'vs the pace,' he gives a new surface a try today.

**TRIP NOTE:** There are two things to consider for this runner's trip : 1) He broke inward and hit the gate before getting slammed outward, which cost him 1+L leaving the gate! 2) He moved inward on the backstretch and was looking to advance while in-between when the field reached the far turn, but he was crowded and forced to steady, which cost him another length, which is not noted in the PPs! He raced 3-4W in the second half of the far turn when looking to gain and level into the stretch, and was even. A tough trip sprinting, he returns from the short break from racing and takes on more ground.

**TRIP NOTE:** He enjoyed a pretty good trip for most of the race as he saved ground and was able to choose his path on the backstretch, but when traveling well and responding to urging in the far turn, he appeared to stall when launching a big to try and split rivals, which goes unmentioned in the PPs. he eventually emerged from the in-between spot, and he was OK in the stretch, but we do believe that there was some mild trouble in what was a good trip otherwise.

**TRIP NOTE:** The PPs are a bit deceiving for this runner. Yes, he was clear, but the stalker that kept him honest on the front end had about 6+L on the rest of the field, which means that if not for the race stalker, he could have really backed down the pace in this race. He began to inch away from his tracking rival into the far turn, was coaxed to pick up the pace as the race favorite approached near the stretch, and he finished gamely in the lane to hold sway. A good win and game performance after a trip that we'll label as neutral, a new rider takes over for a runner that looks to make his turf record 3-3.

He raced unopposed for most of the race, was finally approached with a little more than 5/16 to go and urged to resist, but after being put to a drive nearing the 1/4 pole, was overtaken by several rivals at the furlong pole. **TRIP NOTE:** ON DIRT: He showed good speed and was a length and a tail behind the leader, but was also in a tough in-between spot, which resulted in the jockey taking him backwards to avoid a bad spot throughout. This concession cost 1+L and is not noted in the PPs. He eased to the outside and quickly made up the lost ground (cost him some fuel), traveled 3-4W through the far turn, and weakened in the stretch. A tough trip given the early position and mild trouble, a new rider takes over.

**TRIP NOTE:** He was off a touch slow and squeezed pretty bad, losing his path and 2+L at the start. This bad beginning is noted in the PPs. He recovered while under urging and traveled 3W leaving the backstretch, raced 3-4-5W as the far turn progressed, and was given a token ride through the lane. A tough trip to all but get eliminated at the start, we'd take this performance with a grain of salt as it was also vs his running style.

**TRIP NOTE:** She targeted open air while traveling 3W and in a neutral spot down the backstretch, continued in a similar fashion through the far turn before easing 4-5W into the stretch, but was just average in the lane. A neutral trip overall, she will need to improve.

**TRIP NOTE:** She was outquicked early and landed in a clear last place position, began gaining with 5/16 to go and angled 3-4-5W from the 1/4 pole to the stretch (widest), and finished strongly to close the gap. A wide trip on this day, she draws the far outside post again.

**TRIP NOTE:** She broke 1+L slow and lost untold position before landing in a wide position while near the back early; this was a bad beginning! As if the start wasn't enough to overcome, she traveled 4-5-6+W through the far turn, briefly struggled with the centrifugal force (this course has little to no banking), and predictably failed to threaten. A tough trip from start to finish, she draws poorly again.
