RIFF

Design by Olle Lundberg

Create different design expressions

When Olle Lundberg designed the luminaire Riff, he wanted to create a flexible and versatile luminaire, which could easily be adapted to different environments. The common component of Riff is the so-called light engine, made of die cast metal for good thermal management, and with a LED module and LED protector included, reflecting high quality material in meticulous detail. Diffusers are also included for an even spread of light.

Standard finish

White
RAL9016 G50

Black
RAL9005 G50

Product information

Material	Light engine in die cast metal. To complete the luminaire, one of three shades are added. Bowl: Opal glass Cone: Die cast metal edge with mounted opal glass shade Puck: Die cast metal puck with an extra diffusing plate
Installation	Suspended in 2 m textile cable, black or white. Electronic driver is mounted in the supplied ceiling cup. Supplied with CableCup.
Light source	LED light source included, colour temperature 3000K or 4000K. Colour rendering CRI > 80. Chromaticity tolerance 3 SDCM. Rated lifetime: L70 50 000h.
Light regulation	Riff small and medium: LED module with possible dimming via phase dimming (leading edge and trailing edge phase control) or LED module with possible dimming via DALI (Note: Not push dim). Riff large: LED module with the possibility of dimming via Push dim and 1-10V or LED module with the possibility of dimming via DALI (Note: Not push dim).
Measure (mm)	Riff Bowl: Ø132xH171 / Ø196xH256 / Ø285xH354
