EAGLE

Design by Tham & Videgård

A magnificent bird

In 2010, the now world famous Treehotel was inaugurated in the village of Harads, close to the Arctic Circle in Norrbotten. The room Mirrorcube was designed by Tham & Videgård Architects, which is, as the name suggests, a mirrored cube that blends in and becomes one with the surrounding forest. The wooden house was to be fitted with a large pendant lamp, and in collaboration with ateljé Lyktan's special tailored service, The Studio created the iconic lamp Eagle, a modern chandelier which is now being put into production.

Standard finish
