

CARE AND MAINTENANCE

Product: Hood (Moulded polyester felt)

Dust/dirt

The product/material can easily be vacuumed to remove dust and dirt.

Stains

Upon the occurrence of stains, the material can be washed.

Use washing-up liquid and possibly water. Pour concentrated washing-up liquid on the remaining stain.

Gently rub the washing-up liquid into the material with the help of your fingers.

The stain will dissolve and may occur on the back of the material.

If necessary, wash the washing-up liquid off with water.

In order to safely avoid a water mark, the product can be rinsed quickly with water.

Allow to dry.

NOTE! Avoid soaking the product in full.

Pilling

Upon the occurrence of pilling, use a lint shaver. Move the shaver gently over the problem area.
