Key and how to interpret the data	
The allergy data detailed in the table is based on technical specifications from our suppliers. Please note that due to the operation of the machine, cross-contamination of allergens present cannot be prevented.	N means that the component is not present in the product as delivered by our supplier.
If adding a sachet or additional syrup, please add that allergen data to that of your drink.	Yes in the allergen columns means that the allergen is present in the drink or chosen addition therefore this selection is not suitable for customers who have an allergy or intolerance to that allergen.
	Y/N in the first two columns details whether the product is suitable for vegetarians or vegans.

All machines Nutrition Guide

The figures below give the nutrition values for each drink offered by the machine. Optional flavours and sachets are listed separately and must be added to the value for the drink.
