

DIRECTIONALS

ULT6 & ULTMC Series Split & Dual Colour Surface Mount

ULT6 and ULTMC directional LEDs are bright and versatile warning lights that are suited to a wide variety of applications. Their ultra-low profile makes them easy to install virtually anywhere on a vehicle. Both models offer wide angle optics and multiple flash patterns, including synchronisation with other units for simultaneous or alternating operation. ULT6 models feature 6 LEDs and are available in either single colour or split-colour configurations (3 LEDs of each colour). The ULTMC is a dual-colour light featuring 12 LEDs (6 of each colour) and available in 7 colour configurations.

Models

PART NO.	COLOURS	VOLTAGE	AMPS
