

## DIRECTIONALS

## SecuriLED II SERIES

### Surface Mount

The SecuriLED II™ is the new generation of Directional LED lamps following the popular SecuriLED. They feature enhanced styling, features and improved performance. The units are interchangeable with the original SecuriLED, sharing similar dimensions and the same fixing hole size and centres. They are particularly suited to larger vehicles and situations where a 'BIG' warning signal is desired, e.g. Trucks, Road Sweepers, Agricultural Trailers etc. Available in multiple colours, R65 Category X Class II approved with multiple flash patterns which are selectable and multiple units can be synchronised.

### Models

PART NO.	COLOUR	VOLTAGE	AMPS	MOUNT
