

CD5070 SERIES

Flexible Numberplate LED

The Code 3 CD5070 Series Flexible Numberplate LED is a versatile lighting solution designed for police and other emergency vehicles. It features a flexible black rubber numberplate holder that conforms perfectly to the vehicle's body contours. Dual-colour LED directional modules are integrated into the slim housing in a side-facing direction, providing enhanced safety for your vehicle when emerging at junctions or passing obstacles. With ECE R65 Class 2 and ECE R10 approvals, IP67 ingress protection, and a dimming mode for optimal day and night performance, this lamp ensures exceptional functionality and reliability.

The CD5070 Series is fully compatible with the Code 3 DNA system for seamless integration and synchronisation with your vehicle's emergency warning system.
