

HAKI ARDHI
THE RIGHTS REPORTING TOOL

TIMELY | INFORMATIVE | ACCESSIBLE

SOCIAL DIGITAL TOOLS SAFEGUARDING WOMEN'S LAND

Date: Monday March 11, 2024 2.30 – 4:00 pm

Location: Church Center of the United Nations (777 United Nations Plaza, New York, NY 10017)

Summary

The violation of women’s tenure rights frequently entails gender-based violence and impacts both women’s economic and social security as well as their mental and physical health. State institutions are often not sufficiently aware of these rights violations and lack capacities to respond to them. This session highlights an innovative approach enabling women to report tenure rights violations and GBV to trusted community-based actors through a social, digital reporting system which is currently being piloted in Kenya. The Haki Ardhi rights reporting tool enables efforts for improving responses and policies of state and community institutions towards gender equality and empowerment based on near real-time data.

The session is co-hosted by: TMG Research, Kenya Land Alliance, Rainforest Foundation UK and the Huairou Commission.

Programme
