

**Project Planning and Information Form  
Family Forest Carbon Program Eligibility**

<b>Region:</b>	<b>MW</b>
----------------	-----------

Drop down, select MW for Michigan, Wisconsin, Minnesota

**Landowner Information**

Landowner Name:	Summary Tab in CRM database
Tax Parcel ID Number(s) (if known):	Summary Tab in CRM database
Email:	Summary Tab in CRM database
Mailing Address:	Ask Landowner
Phone Number:	Summary Tab in the CRM database
Property Acreage:	591.86
Forested Acreage:	489.39
<b>GMF CA Acreage:</b>	
<b>GMF MW Acreage:</b>	<b>272.57</b>
<b>PDF Acreage:</b>	<b>111.86</b>
<b>GOF Acreage:</b>	
<b>EYW Acreage:</b>	
Does the LO have a survey?	No
Was it completed recently and by a professional?	N/A
Does survey need digitized?	

Summary Tab in the CRM database  
 Summary Tab in the CRM database, or information derived from site visit  
 Site visit information  
 Site visit information  
 Ask Landowner, or source from County GIS website  
 Surveys less than 10yrs old should be attached in a Timeline note in the CRM  
 County GIS websites may accurately reflect the survey, but if not enter yes

**Eligibility Information**

Is the woodland eligible?	Partially
If no, why not? (proceed to stand level information table below)	
If the woodland does not meet multiple requirements, explain?	
If the woodland meets partial eligibility, explain?	Portions of ineligible forest types / non forest that do not qualify
If yes, proceed as normal below	

Woodland is referring to all the parcels associated with the CRM Profile assigned, select drop down  
 Select drop down that best describes your scenario  
 Summary of the stand level information entered below  
 Summary of the stand level information entered below

**Woodland Information**

Does the Project Area have any legal language that will restrict or prohibit timber harvesting?	No
Does the LO have an FMP?	No
If yes, does the FMP need an amendment?	
If no FMP, which plan best suits their needs (FFCP Template or 3rd Party)?	Stewardship plan. CAP 106 plan being written 2023
Are there any ineligible stands on the property? (Plantations, <2000 bd ft/acre, >50% conifer, etc.) If yes, please list ineligible stands in the "Stand Level Information" section below.	Yes, conifer stands, swamp hardwoods

FFCP will screen for conservation easements prior to CF assignment, so this will always be no  
 This is referring to an active FMP  
 FFCP has an addendum to attach to most FMPs  
 Ask Landowner if they have plans to enroll in additional forestry programs offered by state or federal agencies, enter those plans here  
 List ineligible cover types from the stand level information below

**Planner Information**

Planner Name:	Enter your name
Company:	Enter your company's name
Email:	Enter your business email address
Phone Number:	Enter your business phone number

**Planning Review (AFF Staff Only, Proceed to Stand Table Below Otherwise)**

Is there a conservation easement?	
Was the easement reviewed?	
Was the easement approved?	
Easement Holder & Issued Date:	
Are there any other exceptions that have been approved? (min acreage, non-contiguous forested acreage, etc.)	
List exception(s):	
Senior Forest Manager Approval:	
Date Reviewed:	

**SKIP**

This section is for the Senior Forestry Manager to complete

**Stand Level Information** Each row should be filled in with field data for FFCP Project Areas and summarize Ineligible Forest Cover Type.

Recommended Enrollment Practice	Stand # or Name	Acres	Does the stand meet the forest type requirement?	Does the stand meet the volume requirement?	Does the stand meet the stocking requirement?	Forest Health Concerns	Recommended/ Approved management activities	Stand details or other notes (stand qualification/non-qualification details)
GMF	FFCP Boundary: 26889-GMF 1-1	272.57	Yes	N/A	Yes	None	STS according to FFCP GMF Practice guidelines	Very dense stocking
			maeple-beech-birch		142 sqft/ac			
PDF	FFCP Boundary: 26889-PDF 1-2	111.86	Yes	Yes	N/A	Aspen decline due to age	Coppice according to FFCP PDF Practice guidelines	Very mixed stands, stocking not evenly distributed. Mixed NH regen, some Fir 1200 saplings per acre
			aspen-birch	17 cds/ac				
none	Ineligible Forest Types 0, 1	207.43	No	N/A	N/A			
			confier, swamp hardwoods, wetlands					
SUMMARY:	0	591.86
