

# IS YOUR DOG

# ALWAYS ITCHY?

## YOUR DOG COULD BE PART OF A BREAKTHROUGH SOLUTION!

Veterinary researchers are exploring an innovative approach to treating persistent canine itching caused by atopic dermatitis. We are looking for dogs to participate in a clinical trial to evaluate the effectiveness and safety of a new potential treatment.

### You can help!

Ask our clinic about possibly enrolling your dog in this clinical trial.

### Why participate?

Your dog could be a part of groundbreaking science to bring an innovative atopic dermatitis treatment to market! Enrolled dogs will receive free study visits, diagnostics, and treatment, along with clinic credits or compensation for future veterinary care.

## TALK TO OUR TEAM TODAY FOR ENROLLMENT DETAILS!
