

McCauley Animal Clinic

Dear McCauley Family,

We are excited to announce a new addition to our veterinary practice! Please join us in welcoming Dr. Madyson Marrs to the McCauley Team.

Dr. Marrs earned her Doctor of Veterinary Medicine from the University of Missouri. She also received her undergraduate degree from the University of Missouri, graduating with honors. While she is a newer graduate, her journey in veterinary medicine began well over a decade ago. Growing up in the Kansas City area, she started volunteering at a local mixed animal clinic at age 15 and continued to work as a veterinary assistant and technician throughout her high school and collegiate years.

During her time in veterinary school, Dr. Marrs pursued a wide range of clinical experiences. She spent time in South Africa working with diverse wildlife, including giraffes, rhinos, and African painted dogs. She dedicated time to the Raptor Rehabilitation Project, helping to treat and rehabilitate injured birds of prey.

Dr. Marrs has developed a passion for preventative care, internal medicine, dentistry, and exotic animal medicine. She is eager to bring her passion to our clinic and looks forward to building lasting relationships with you and your pets.

Outside of the clinic, Madyson enjoys baking, embroidery, and quality time with her friends and family. She is also a proud pet parent to two grey cats named Frannie and Winnie.

Dr. Marrs begins seeing appointments in June. Feel free to schedule your pet's next visit by calling the clinic or taking advantage of our online booking tool – just visit our website. She can't wait to meet you!

Warmly,

The McCauley Animal Clinic Team
