SURGICAL CONSENT FORM FOR NEUTER OR SPAY

Patient: _____ **Owner or Responsible Party:** _____

Like you, our greatest concern is the well being of your pet. Your pet is scheduled for anesthesia and/or surgery. Before putting your pet under anesthesia, we will perform a full physical examination. We will also run a pre-anesthetic blood profile to maximize patient safety and to alert the doctor to the presence of dehydration, diabetes, kidney, and/or liver disease that could complicate the procedure. These conditions may not be detected without the aid of blood work. These tests are similar to those your own physician would run if you were to undergo surgery.

We extract teeth only when we believe it is medically necessary for the well-being of your pet. Your approval ahead of time decreases the length of time your pet is under anesthesia. Please circle one:
